ORAVET® Dental Hygiene Chews FAQs

Usage/Instructions:

1. My dog really likes ORAVET® Dental Hygiene Chews. Is it safe to give more than one per day?
    a. We recommend that you give your dog 1 ORAVET® Dental Hygiene Chew per day.

2. Can unfinished ORAVET® Dental Hygiene Chews be saved for later use?
    a. No. If left out, ORAVET® Dental Hygiene Chews can harden. If your dog doesn't finish eating one, it should be discarded.

3. How do I know which size of ORAVET® Dental Hygiene Chews is right for my dog?
    a. Dogs come in different sizes, and so do ORAVET® Dental Hygiene Chews. There are 4 sizes in all, for dogs extra-small 3.5 - 9 lbs., small 10 - 24 lbs., medium 25 - 50 lbs, and large over 50 lbs. If you are still uncertain, consult your veterinarian.

4. What do I do if my dog is between recommended ORAVET® Dental Hygiene Chews weight sizes?
    a. If your dog's weight is between the recommended chew size ranges, we recommend selecting the chew size based on the target weight of your dog.

5. My dog threw up or had diarrhea after eating an ORAVET® Dental Hygiene Chew, is that normal?
    a. If your dog develops any abnormal signs, including vomiting or diarrhea, after eating an ORAVET® Dental Hygiene Chew, please call the customer support team at 1-888-637-4251.

6. How should I give ORAVET® Dental Hygiene Chews to my dog?
    a. Give your dog one whole ORAVET® Dental Hygiene Chew per day. Do not cut the chew into pieces; it should always be administered whole. We also recommend that you monitor your dog until the ORAVET® Dental Hygiene Chew is fully consumed.

7. Why is it important to have my dog's teeth cleaned regularly?
    a. Like people, dogs need regular dental cleaning to remove the plaque and tartar buildup that can cause bad breath.

8. I feed my dog dental diet or dental chews already. How are ORAVET® Dental Hygiene Chews different?
    a. ORAVET® Dental Hygiene Chews have a unique dual-action mechanism. The action of chewing works to loosen and dislodge plaque to help it break away from teeth. Then, the ingredient delmopinol creates a protective barrier against the bacteria that cause bad breath and are the basis for plaque.

Ingredients/ Nutrition:

1. How many calories are in each chew?

   a. ORAVET® Dental Hygiene Chews come in 4 different sizes for different size dogs. The extra-small chews have 26.8 calories per chew, small chews have 47.7 calories per chew, medium chews have 80.5 calories per chew, and large chews have 128.2 calories per chew.

2. What are the ingredients in ORAVET® Dental Hygiene Chews?
   a. Crafted in the USA, ORAVET® Dental Hygiene Chews are made with quality ingredients from around the world. If you have additional questions, please reach out to the customer support team at 1-888-637-4251.

Additional Questions:

1. I did not see the answer to my questions. Where can I find the additional information?
