TECHNICAL DATA SHEET
CAMU CAMU POWDER AND CAPSULES

1. **PRODUCT DESCRIPTION:**

   Camu Camu is a native fruit of the Peruvian Amazon, mostly in floodable areas; it grows on a tree that can reach 5 ms of height. It bears round, bulby fruit, similar to cherries with a diameter of about 3 cms. , that weighs about 20 grs. The ripe fruit pulp can be eaten, with a lovely acid flavor, similar to cherries or lemon.

2. **SCIENTIFIC NAME:** *Myrciaria dubia*

3. **COMMON NAMES:** Camu Camu.

4. **PART USED:** Hypocotyls, Fruits.

5. **HARMONIZED CODE:** POWDER - 1211.90.90.90

6. **ORIGIN:** Camu Camu grows mostly at the banks of the Ucayali and Amazonas rivers and its affluents, in the area between the towns of Pucallpa (by the Ucayali river) and Pebas (by the Amazon river Central Rainforest, Chanchamayo- Perú).

7. **PROCESS:**
   Reception - Selection and Classification - Disinfection –- Dried to Low Temperature - Milling - Packaged.

8. **INGREDIENTS:**
   100% Camu Camu organic whole fruit.

9. **TECHNICAL SPECIFICATIONS:**

Appearance:	Fine dust
Color:	Orange
Scent:	Characteristic
Flavor:	Sour, acid

10. MICROBIOLOGICAL SPECIFICATIONS

N. Moulds (UFC/ g):	100 estimated
N. Leavenings (UFC/ g):	< 100 estimated
N. Bacillus Cereus (NMP/ g):	$<10^2$
Det. Salmonella (25 g):	Absence
N. Enterobacterias (UFC/ g):	< 10 estimated

11. PHYSICAL-CHEMICAL ANALYSES

Physical Chemical Analyses

Calories	375 g
Carbohydrates	83.54g
Fiber	5g
Humidity	Max 10%
Proteins	5.1
Fats Lipids	0.2
Calcium	28 mg
Phosphor	15 mg
Iron	0,12 mg
Thiamin	0,02 mg
Riboflavin	0,05 mg
Niacin	0,61 mg

Ascorbic acid L 2.780 mg (pulp) to 3000 to 6000 mg (Powder)

12. RECOMMENDED DOSE AND FORM OF ADMINISTRATION:

CAPSULES: Food supplement. Oral intake. Take 1 to 2 capsules per day before meals.

POWDER: It is recommended to consume 1/2 tablespoons (2.5) a day accompanying food.

14. PACKAGING:

CAPSULES: PEAD/PET Bottles containing 100 capsules of 500mg.

POWDER: 200g bags (final presentation). 10 kg bags in 20 kg Boxes (bulk)

15. STORAGE AND STABILITY:

Store in a dry and cool place, keep away from heat sources. 24 months-stability from manufacturing date.

16. PRECAUTIONS:

This product has no contraindications to be a food product. In the literature we have found no reports about contraindications for use of its components, or possible drug interactions.

17. PRODUCTION CAPACITY:

CAPSULES: Up to 100000 bottles per month.

POWDER: 200 tons per month.
