YAWN air

AIR MATTRESS
USER INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS

- Do not use hot air to fill the airbed
- Do not over inflate. Stop inflating once the bed is fully expanded and firm
- This product is not a buoyancy aid. Do not use on water
- This product is not a lifebuoy or life saving device
- Keep away from fire
- This product is not a toy. Do not stand or jump on it.
- Make sure the airbed is laid on a level surface free from stones and sharp objects. Bed may tip over on uneven surfaces
- This airbed may be used by children 8 years and older and by persons with reduced physical sensory or mental capability or lack of experience and knowledge, provided they are supervised and have been given instructions concerning use of the product in a safe way and understand the hazards involved
- Avoid exposing the airbed to extreme temperature (hot or cold). In hot weather, the air will expand, you must let out some air to prevent the airbed from failing due to overpressure. In cold weather your airbed will lose some pressure due to the fact that the air will contract

HOW TO INFLATE:

1. Open the bed out and lay on a flat surface
2. Twist off the outer cap
3. Pull out the plug, so the valve is fully open
4. Place your foot over the opening on the sponge
5. Begin to push up and down on the sponge and the bed will start to inflate
6. Continue to pump air into the bed until you reach your desired firmness
7. Place the plug back to seal the air in
8. Twist the cap back onto the plug to ensure the plug is secure
   Note: there is a valve at the side of the bed where a foot pump can be used as an alternative

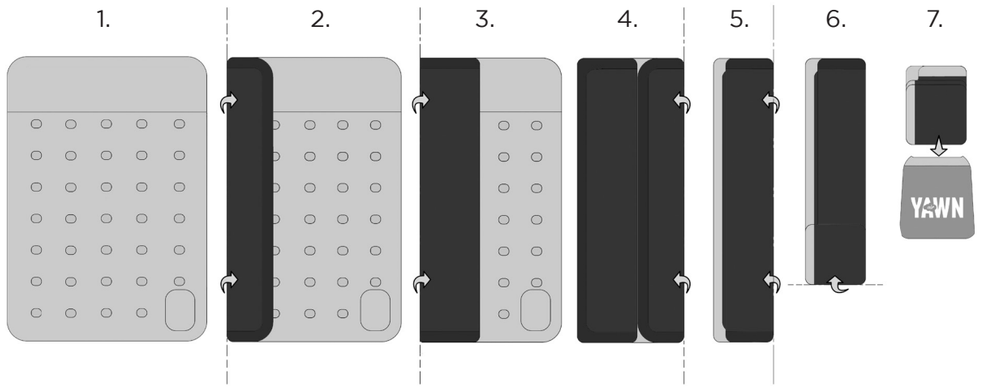
HOW TO DEFLATE:

1. Twist open the cap
2. Pull out the plug, so the valve is fully open
3. Apply pressure on the bed until it is fully deflated

HOW TO FOLD

If single bed start from step 3.

1. Ensure bed is flat and fully deflated
2. Fold over side by one quarter
3. Fold over again by one quarter
4. Fold opposite side to the centre
5. Fold again
6. Fold 3 times
7. Put into bag



MAINTENANCE AND STORAGE

- Wipe clean only with a damp cloth. DO NOT use detergents.
- Ensure the airbed is completely DEFLATED and DRY before storage
- Store in a cool, dry place
- Your airbed should be stored with the valve closed
- Keep sharp objects away from the airbed
- In case of a puncture, a repair patch has been included. Please follow repair instructions carefully.
