SiamMandalay Company, Ltd.

“SiamMandalay believes in uniting the mastery of artisanal craft with clean, sophisticated, styling. We hold a steadfast belief in exceptional craftsmanship - never cutting corners, and refusing to compromise on premium materials; timeless designs, or tailored handiwork.

In the face of rampant mass-produced products, where quantity has replaced quality, we hold steadfast to the idea of superior production, fair trade, and quick diversification.

Everything we offer has been envisioned and crafted by a small group of talented artisans. We are motivated by our people and each one’s commitment to getting results ethically and efficiently.”

Magic Lab

With over 10 years manufacturing and selling products globally, the team became frustrated at the lack of an advertising agency that can deliver beyond pretty pictures. Yes, they can make our Instagram feed consistent, but there is a clear lack of commitment to the bottom line that all businesses have – our revenue.

By striving hard to ensure products are listed correctly and most efficiently on Amazon, the biggest marketplace globally, the team figured out the best way to ensure how brands can be the most profitable. The result of this? Magic Lab. An independent agency that aims to deliver not only the best marketing collaterals that suit the Amazon target audience, but also to ensure we deliver to the client's financial objectives. Magic Lab team is persistent in giving client's the most honest and clear feedback. We don't want to waste your time but to ensure that you're the most profitable on Amazon.

MarketYZe Co., Ltd.

MarketYZe is a digital marketing agency based in Bangkok and focused on eCommerce and brands selling on marketplaces. We form digital strategies and execute them by taking a data-driven approach to deliver the best results for our clients.

At MarketYZe, we enjoy generating the highest return on investment from every dollar marketing budget spent. We A/B test, iterate on what's working, scrap what's not, and then repeat the process. Our expertise is suitable for the most demanding clients. Selling online is not hard anymore. There are a lot of platforms and tools available. With increased competition the hard part is getting interested customers to see your products and buy. Managing this process effectively is what we do best.

REPUBLIC OF ESTONIA
E-RESIDENCY

e-Residency of Estonia

Estonia is one of the most digitally advanced countries in the world and since 2014 non-residents can establish a trusted EU company online with the e-Residency digital ID card. Expanding your eCommerce business to European markets has never been easier, as Estonia boasts a fully digital government, including the paperless and remote company registration and management. First, apply for a government-issued e-Residency ID, then choose a virtual office service provider and log on to the e-Business Registry to complete the company registration within minutes.
