Enrollment Prep

1. Prior to enrolling MSKUs into the program, decide on one of the following options:

ASIN Type	MSKU Enrollment Method	Recommendation
Enrolling a self-fulfilled ASIN into FBA Small and Light	Use existing MSKU.	Recommended if you wish to fulfill this product via Amazon.
	Create a brand new MSKU.	Recommended, if you also plan to self-fulfill (e.g. in case you run out of stock with FBA).
Converting a FBA ASIN to FBA Small and Light	Use existing MSKU for noncommingled ASIN.	Recommended if you currently do not have any inventory in Amazon warehouses and your MSKU is tracked with an Amazon barcode (non-commingled).
	Create a brand new MSKU for commingled ASIN.	To help keep our fees low, we currently do not allow commingling in the Small and Light Program. Therefore, you are unable to enroll existing FBA offers that are tracked with manufacturer barcodes (i.e. commingled). Please create a new self-fulfilled MSKU that you will then convert to FBA after enrollment into Small and Light.
Enrolling a new to Amazon ASIN into FBA Small and Light	Create a brand new MSKU.	Recommended if you wish to fulfill this product via Amazon.

- If you need help in creating new MSKUs, please refer to our guide: <https://images-na.ssl-images-amazon.com/images/G/01/fba-help/ES-EN-SnL-OfferCreationGuide.pdf>
- In Seller Central, input package dimensions and weights for all MSKUs you plan on submitting for enrollment.

Save and Upload Your MSKUs Into Seller Central

1. Save the **Upload tab** as a **Text (tab delimited)** file.

2. Click the **Browse** button on the enrollment page and select your newly created **Text (tab delimited)** file.
3. Click the **Upload Now** button.

5

Review Upload Status

1. Upload processing time depends on file size¹. Monitor the **Status/Results** section and click **Refresh** for updates.

3. Review File Status and History

View the status of your last 10 uploads. If the processing report indicates any errors, modify your Small and Light Enrollment File and return to step 2 above. [Learn More](#)

2. View the **Processing Report** (within the **Actions** section) upon availability. Copy and paste the report into Excel for improved readability. Check the report for errors:

Common Enrollment Errors	Remedy
The product's package dimensions do not meet the required criteria.	Product must fit with 33 cm x 23 cm x 2.5 cm. Please check and update listing if possible.
The product's package weight does not meet the required criteria.	Product must weigh less than or equal to 219g. Please check and update listing if possible.
The provided MSKU did not match any existing offers.	Please check MSKU was created and no spaces exist before or after the MSKU on template.
The product does not meet the program requirements for projected sales velocity.	Sales velocity may increase in the future. Continue to seek enrollment weekly.

¹ Small files generally take a few minutes, large files (greater than 5 MB) may take up to 8 hours.

Common Enrollment Errors	Remedy
<p>We are temporarily unable to enroll this product into the Small and Light program. Please try enrolling this product again later.</p>	<p>Occurs during system error. Please try enrolling this product again later.</p>
<p>The product is categorized as Hazmat.</p>	<p>You may submit to standard FBA.</p>
<p>The product is missing package dimensions in the selected marketplace.</p>	<p>Submit a feed as a partial update under the correct item category, fill in the correct dimensions and upload.</p>
<p>To help keep fees low, we currently do not allow commingling in the Small and Light program. Please create a new seller-fulfilled MSKU and enroll that MSKU into the program. Once successfully enrolled, our system will automatically convert your MSKU into a non-commingled Small and Light offer.
