

Amazon's Climate Pledge Friendly with ClimatePartner certified

Transparency about a company's entire climate action strategy with ClimatePartner certified

With ClimatePartner certified, you get a clear plan to follow, broken down into five steps.

Step 1: Measure Product Carbon Footprint (PCF)

Provide data to ClimatePartner and ClimatePartner will measure your PCF

Step 2: Set your emissions reduction targets

Set carbon reduction targets for your products and your organisation

Step 3: Implement reductions

Implement one or more reduction measures

Step 4: Finance climate projects

Contribute to climate projects in the ClimatePartner portfolio

Step 5: Communicate transparently

ClimatePartner will create a label and a unique product climate-ID page disclosing all of the above

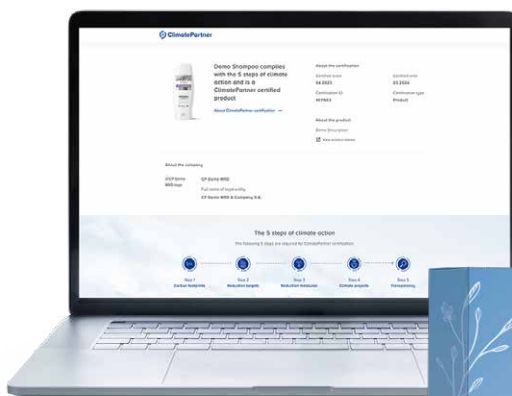

- ✔ Over 10,000 ClimatePartner certified products in the Climate Pledge Friendly program
- ✔ Most product categories are eligible for certification
- ✔ Typical timeframe for certification: 8 to 12 weeks
