Seattle, WA — September 16, 2020 — Amazon Music and IMDb (www.imdb.com), the world's most popular and authoritative source for movie, TV and celebrity information, announced a new original podcast with the upcoming launch of *That Scene with Dan Patrick*. The weekly series will feature actors and filmmakers discussing what went on behind-the-scenes of some of Hollywood's most famous and iconic movie and TV moments with legendary sports broadcaster [Dan Patrick](#). Beginning September 22, the new show will be exclusively available on Amazon Music, which now features a wide selection of popular podcasts, including *Movies That Changed My Life* from IMDb.

The inaugural episode features actor and comedian [Adam Sandler](#) (*Saturday Night Live*, *Billy Madison*) who shares the story of his infamous fight with legendary game show host Bob Barker in *Happy Gilmore*. Upcoming episodes will feature fellow SNL alumni and actors [Will Ferrell](#) (*Old School*) and [David Spade](#) (*Tommy Boy*), as well as [Bryan Cranston](#) (*Breaking Bad*), and [Peter Billingsley](#), better known as Ralphie Parker from *A Christmas Story*.

"We all have moments in life that take us back to a specific time or feeling in our lives," said Dan Patrick. "For some it's a familiar smell, a taste, or a song. For me and so many, it's a scene in a movie that made us laugh, made us cry, frightened us, inspired us, or simply provided escape. This podcast is about those moments, and I could not be more passionate about sharing them with you again - but this time it will be all about how those scenes happened, and sometimes how they almost never happened at all. I cannot think of a more perfect place to share them than IMDb and Amazon Music."
