SEATTLE—December 3, 2024—IMDb (www.imdb.com), the world's most popular and authoritative source for information on movies, TV shows, and celebrities, today unveiled the most popular stars, movies, and shows of 2024. Rather than base its annual rankings on small statistical samplings, reviews from professional critics, or box-office performance, IMDb determines its definitive year-end lists using data from IMDbPro MOVIEmeter and STARmeter rankings, which are based on the actual page views of the more than 250 million monthly visitors to IMDb.

Deadpool & Wolverine tops the list of most popular movies, with *True Detective* (in its fourth season) as the top series. The year's most popular movies showcased a mix of franchise continuations (*Dune: Part Two* at No. 2, *Furiosa: A Mad Max Saga* at No. 3, and *Joker: Folie à Deux* at No. 4) and standout original films (*The Substance* at No. 6, *Civil War* at No. 7, and *Longlegs* at No. 10). Debut seasons of streaming series were popular this year, with *The Penguin* at No. 3, *Fallout* at No. 4, and *Shogun* at No. 6.

Sydney Sweeney dominated the IMDbPro STARmeter chart, consistently ranking in the top 10 throughout 2024 and ending the year as the IMDb Most Popular Star. The early-year buzz surrounding rom-com *Anyone But You* propelled her to stardom and also secured the top Breakout Star spot for her co-star Glen Powell. Powell further captivated audiences with standout roles in *Hit Man* and *Twisters*, generating excitement for his upcoming projects, including the TV show *Chad Powers* and remake of *The Running Man*. *Bridgerton* (No. 8) star Nicola Coughlan also made significant waves, landing the No. 2 spot on the Breakout Stars list and ranking No. 7 among the overall most popular stars of the year.

Earlier this year, IMDb presented STARmeter Awards to Sydney Sweeney and Barry Keoghan (No. 6 most popular star of 2024) during the Toronto International Film Festival. No. 4 most popular star Eiza González also received an IMDb "Fan Favorite" STARmeter Award in 2021. IMDb STARmeter Awards recognize the stars who are fan favorites on the IMDbPro STARmeter chart.
