

## How to choose a study pack

### Step 1: When do I plan to write NEET?

First, select the 'target year' when you plan to attempt NEET. This is important to ensure you get relevant content (monthly tests, full syllabus courses etc) based on your class (Class 11/Class 12 or Repeaters)

**Target Year Exam 2022**

Class 12 and Repeaters

**Target Year Exam 2023**

Incoming Class 12

**Target Year Exam 2024**

Class 11

\*Incoming Class 12: Refers to students who are starting Class 12 in 2022, and are likely to appear for JEE in 2023

\*\*Class 11: Refers to students who are starting Class 11 in 2022, and are likely to appear for JEE in 2024

### Step 2: What pack shall I choose?

Here's a simplified way to choose a pack. Go through the questions below to find out which pack suits you the best.

**Do I have enough resources to study relevant concepts and theory of all the three subjects (Physics, Chemistry, Biology)?**

A	B	C
I have teachers and study material to help me understand concepts and theory. I am looking for some NEET level questions and multiple tests to gauge my knowledge and standing amongst a larger student base.	I have teachers and study material to help me but I am unable to understand concepts and theory completely. I need reference material to get better understanding of certain topics. I am also looking for some NEET level questions and multiple tests to gauge my knowledge and standing amongst a larger student base.	I need access to expert teachers who can teach me concepts and theory from basic to advanced levels, clear my doubts and guide me in the best way possible to prepare for NEET and school tests.

**How well can I balance my school and NEET preparation?**

A	B	C
I can take care of my school curricula along with NEET preparation.	After school, I don't get time to attend live classes for NEET. I need to study for NEET as per the time that suits me.	I am not confident I can balance school and NEET. I need teachers to guide me.

Do I need help to clear my doubts?

A	B	C
I already have mentors and help to clear all my doubts.		I need mentorship support & help from experts to clear the doubts and strengthen my understanding of concepts.

Do I have a solid study plan for NEET?

A	B	C
I have a plan that works well for me. I just need to frequently practice NEET level questions and take the All India Mock Tests to assess my readiness. Also, I need to know my All India Rank and compare my performance with fellow NEET aspirants.	I have a plan but not sure if it covers the entire syllabus.	I am looking forward to a well-designed course, daily practice questions, study plan and revision strategy for NEET with the help of teachers and mentors.

(Only for Target Year Exam 2022 and 2023 students – Incoming Class 12, Class 12 or Repeaters)

Do I have support for revising my Class 11 chapters?

A	B	C
Yes, I have resources to revise Class 11 topics.	I need resources to revise Class 11 topics at my own pace.	I am not confident with my Class 11 topics and I would need teachers & mentors to guide me.
