Values used to calculate fee

Product size tier	Product size tiers are measurement categories based on the unit weight, product dimensions, and dimensional weight of a packaged item. Learn how to determine your product-size tier , or use the Monthly Storage Fees report to see the size tier information for products you have previously stored in FBA.
Current month	Storage fees vary by time of year based on peak shopping seasons (see the rate card above).
Product volume	Product dimensions and volume are measures of the product's size when fully packaged and ready to ship in accordance with FBA policies and requirements . Monthly inventory storage fees are calculated by cubic foot. Use the Monthly Storage Fees report to see the product volume for products you have previously stored with FBA.
Average daily units	Fees are based on the average number of units stored in FBA per month. Use the Monthly Storage Fees report to see the average daily units for your products stored in FBA for previous months.
Dangerous goods classification status	Products that can be sold only through the FBA Dangerous Goods program require special handling and storage. Use the look up an ASIN tool to check the classification status of your ASIN and whether it requires enrollment in the FBA Dangerous Goods program.
