

ECOLOGO® Certification

ECOLOGO

PRODUCT CERTIFIED FOR
REDUCED ENVIRONMENTAL
IMPACT. VIEW SPECIFIC
ATTRIBUTES EVALUATED:
UL.COM/EL
UL 2801

Product Type

- Personal care products
- Hand sanitizer
- Floor care products
- Disinfectants
- Cleaning products
- Laundry care products
- Sanitary paper products
- Electronics

Minimum Criteria

Electronics

- Restrictions of substances of concern
- End-of-life management/extension of life
- Recyclability of packaging
- Corporate sustainability reporting
- Supply chain impact reduction

Process

Step 1: Formulation audit (for formulated products only)

The certification process begins with the submission of product formulation information, including Chemical Abstracts Service (CAS) numbers for all chemicals or compounds >0.01% by weight.

Step 2: Documentation audit

UL provides a checklist of document submission requirements for each criterion listed in the Standard. Documents are reviewed to determine compliance with the requirements of the relevant product category Standard.

Step 3: On-site facility audit

The on-site audit confirms the company is following its processes throughout production and includes an assessment to determine if the manufacturer has procedures to ensure proper quality across specified criteria.

Step 4: Certification monitoring

Once certification is achieved, ongoing surveillance is mandatory to confirm ongoing compliance. Customers must notify of UL of any changes to the product that may affect certification and require reassessment.

Cost

Annual licensing fees are due each year on the anniversary of certification. The cost of certification varies by product category, starting at around \$5,000 (USD). For a quote tailored to your specific certification need, please email the ECOLOGO® Customer Service Team: RCP@UL.com

Formulated products (cleaning products, personal care)

- Prohibited and restricted compounds
- Human health and environmental impacts
- Aquatic toxicity
- Packaging and labeling
- Product performance/efficacy

Resources
