### Calculating your fees

Simply add together your fulfilment and storage fees and any optional services you require to calculate your total FBA Fee.

Calculate your fulfilment fee by identifying the destination country, ship speed, and size band of your units shipped. Then determine the number of units in your order (UPO). If an order has 1 unit, it will be charged the 1 UPO rate. If an order has 2/3 units, all units in that order will be charged the 2/3 UPO rate.

You will be charged in the currency of your Amazon Seller Central account from which you submit your order. Both currencies are shown in the table.

### Calculating your fees

Simply add together your fulfilment and storage fees and any optional services you require to calculate your total FBA Fee.

Calculate your fulfilment fee by identifying the destination country, ship speed, and size band of your units shipped. Then determine the number of units in your order (UPO). If an order has 1 unit, then it will be charged the 1 UPO rate. If an order has 2/3 units, all units in that order will be charged the 2/3 UPO rate. You will be charged in the currency (GBP or EUR) of the Amazon Seller Central account from which you submit your order. Both currencies are shown in the table.

Fulfilment by Amazon Fees

Q1: If I am selling on Amazon, do I pay any fees in addition to the Fulfilment by Amazon fees, storage fees, and optional service fees?
Yes, you pay a subscription fee or per-item fee depending on your current selling plan. You also pay a referral fee per category and closing fee per media item sold. A returns processing fee is charged on customer-returned products sold on Amazon (see FAQ 5). To see which fees and selling plan apply to you, please visit Selling on Amazon Fee Schedule and Seller Pricing and Plans.

Q2: What impact does the elimination of packaging weight have on the fulfilment fee?
This change simplifies the fulfilment fee calculation for your shipped units. You should not see any change to your fees due to the elimination of packaging weight. Prior to June 8, 2021, packaging weight was added to the unit weight to determine the final chargeable shipping weight of a product. Starting June 8, 2021, packaging weight will no longer be added to unit weight and the unit will be charged as per its own weight and dimensions only. For example: A Standard Parcel in the first weight tier used to have a total weight of 250g, for which a 100g packaging weight was a component of, and your max unit weight was therefore the remaining 150g. With the new fee display, your max unit weight for that weight tier is still the same (150g), without the need to factor in packaging weight, and our weight tiers have been adjusted to reflect this change.

Q3: How are Storage Fees calculated?
Storage Fees are charged for all units stored in an Amazon fulfilment centre based on calendar month and your daily average volume per cubic metre (or cubic feet for UK). The cubic metre of any unit will be based on the unit’s size as properly packaged and ready for shipment to customers in accordance with FBA programme policies. Amazon will be entitled to make its own measurement of the cubic metre or weight of any packaged unit or representative sample thereof and in the event of any conflict between such measurement and information provided by the seller, Amazon’s measurement will govern.

Q4: What are Long-term Storage Fees (LTSF)?
The long-term storage fees (LTSF) are in addition to regular inventory storage fees and only apply to inventory aged more than 331 or 365 days. For inventory stored between 331-365 days, monthly fee of € 0.9 per ft³ / £ 37 per m³ is charged for all categories except Clothing, Shoes and Bags, Jewelry and Watches. For all inventory stored more than 365 days the greater between the following options will be charged as your LTSF: (1) minimum LTSF of £ 4.50 per ft³ / € 170 per m³ / € 175.10 per m³ (FR only) / 1785 kr per m³ for all categories or (2) minimum LTSF of £ 0.10 / € 0.26 / ¥ 0.27 (FR inclusive of DST)/1.50 kr per m³. LTSF is charged as per its own weight and dimensions only. For more information on how the fees or credits are applied to your account, please visit FBA customer returns policy.

Q5: What is the returns processing fee? The Returns Processing Fee is equal to 50% of the total fulfilment fee for a given product in the Clothing, and Shoes and Handbags categories. These fees apply to units fulfilled from local inventory as well as across Europe through the European Fulfilment Network (EFN) program. For more information visit the Returns Processing Fee page.

Q6: Are media and non-media items that are Sold On Amazon charged different fulfilment fees? Media and non-media items that are Sold On Amazon are charged the same Fulfilment Fees.

Additional Services and Programs

Q12: What is the Central European Program (CEP)?
Amazon has extended its German fulfilment network with several fulfilment centres in Poland and Czech Republic in order to fulfill growing demand and increase efficiencies. Sellers with German inventory can opt to either store their inventory in Amazon’s fulfilment network including Poland and Czech Republic or continue to store their inventory exclusively in Germany. Sellers storing their inventory exclusively in Germany are charged an additional £ 0.26/€ 0.26/¥0.27 (FR inclusive of DST)/2.50 kr/1.15 kr/monthly LTSF per FBA unit shipped from German fulfilment centres. Pan EU Sellers who do not participate in CEP are also charged this additional fee. Product categories may not be eligible for the CEP. Amazon charges no extra costs for participation in the CEP. Remember: it is the responsibility of the seller to know that stocking inventory in Poland and Czech Republic will trigger VAT obligations and other reporting requirements. For more information, please visit the Central European Programming page.

Q13: What are the cross-border fulfilment options?
Fulfilment by Amazon offers three cross-border fulfilment solutions: Pan-European FBA, European Fulfilment Network (EFN), and Multi-Country Inventory (MCI).

Q14: What is Pan-European FBA?
With Pan-European FBA, Selling Partners choose where to store their products for Amazon to distribute them according to expected customer demand, at no additional cost. In the countries enabled for placement, Selling Partners will benefit from local FBA fulfilment fees and faster delivery promise! By storing goods in additional countries other than the home store, additional VAT reporting requirements may arise. Amazon supports Selling partners by providing resources and solutions that can help with VAT compliance. VAT Services on Amazon is a solution to help manage your EU VAT registration and filing obligations through Seller Central. To learn more about VAT, visit our VAT educational page and start now with VAT Services on Amazon. Find further information on the Amazon Pan-European FBA website.

Q15: What is European Fulfilment Network (EFN)?
With European Fulfilment Network (EFN), you can reach customers in all 7 EU marketplaces with local product listings. Sellers send their inventory to one local fulfilment centre and deliver to other EU marketplaces with cross-border fees and deliver domestically with local fulfilment fees. For example, an Italian customer shopping on Amazon.it can see products sold by a DE seller with a product listing translated in Italian, and buy it for delivery to Italy. The DE seller would pay cross-border fees if the inventory is in a DE fulfilment centre. Note: Due to Brexit, as of January 1st 2021, Amazon is unable to fulfil FBA orders across the border between the UK and EU. To sell with FBA in both the UK and EU, you will need to send inventory to fulfilment centres in the UK and EU. Click here to learn more.
