Calculating your fees

Simply add together your fulfilment and storage fees and any optional services you require to calculate your total fee.

You will be charged in the currency (GBP or EUR) of the Amazon Seller Central account from which you submit your order. Both currencies are shown in the table.

A flat fee per unit, based on the product type, dimension and outbound shipping weight. The outbound shipping weight is based on your unit's weight and our packaging weight

2. Storage Fee

Charged per cubic meter or cubic foot per month. Please refer to page 2 for standard size storage fee and page 3 for oversize storage fee

3. Optional Services Fee

Include packaging services, returns, handling, and remissions. These are charged separately (See page 9)

Fulfilment by Amazon Fees

Q: Do I still pay Selling on Amazon fees?

A: Yes, for current selling plan features and prices, please visit the [Selling on Amazon website](#).

Q: How are Fulfilment Fees calculated?

A: Fulfilment Fees are calculated based on the total weight of the parcel, including items and packaging, and the dimensions of the parcel. The total weight is checked by Amazon and rounded up to the nearest 1g. Unit weights, dimensions, and other measures used to calculate fees are as determined by Amazon and are subject to variations based on packaging. Dimensions include item packaging and may change based on packaging type.

Q: How are storage fees calculated?

A: Storage fees are charged for all units stored in an Amazon fulfilment centre based on calendar month and your daily average volume per cubic metre (or cubic feet for UK). The cubic metre of any unit will be based on the unit's size as properly packaged and ready for shipment to customers in accordance with the FBA Programme Policies. Amazon will be entitled to make its own measurement of the cubic metre or weight of any packaged unit or representative sample thereof and in the event of any conflict between such measurement and information provided by seller, Amazon's measurement will govern.

Q: What are the Long Term Storage Fees?

A: From 1st August 2019 onwards, inventory aged more than 365 days, will be charged long-term storage fees on a monthly basis (£4.30 per cubic foot/€170 per cubic meter), also a minimum long-term storage fee charge of £0.10/€0.10 per unit, per month would be introduced. The greater of the applicable long-term storage fee (based on the packaged volume of one unit) or per-unit minimum long-term storage fee will be charged. The long term storage fee is in addition to the regular Inventory Storage Fee and will not be charged if a request has been made to remove or dispose of the units prior to the fee being charged. This fee also applies to Multi-Channel Fulfilment and FBA Small and Light (available in UK and DE). For further details please visit the [help page](#).

Q: What are the costs for customer returns?

A: The Returns Processing Fee is equal to the total fulfilment fee for a given product. This fee applies to products sold on Amazon in selected categories for which we offer free customer return shipping to a fulfilment centre, except where the reason for the return is one for which Amazon takes responsibility in accordance with the FBA Lost and Damaged Inventory Reimbursement Policy. These fees will apply to units fulfilled from local inventory as well as across Europe through the European Fulfilment Network (EFN) programme.

Fulfilment by Amazon Policies

Q: Am I restricted on the types of products I can fulfil through FBA?

A: Yes. Please consult the FBA Programme Policies for detailed information about product restrictions.

Q: What is the Central Europe Programme (CEP)?

A: Amazon has extended its German Fulfilment network by several new Fulfilment centres in Poland and Czech Republic in order to fulfill growing demand and increase efficiencies. Sellers with German inventory can opt to either store their inventory in Amazon's fulfilment network including Poland and Czech Republic or continue to store their inventory exclusively in Germany. Sellers storing their inventory exclusively in Germany are charged an additional € 0.50 of Fulfilment Fee per FBA and € 0.30 of Fulfillment Fee per Small and Light unit shipped from German fulfilment centres. Sellers who are part of the Pan-European FBA program are not charged this fee.

Q: What are the key eligibility criteria to join the Small and Light programme?

A: FBA Small and Light is a fulfilment solution for fast-moving products that meet specific size, weight, and price requirements. The programme is only open to Amazon-approved ASINs that meet the following minimum criteria:

- weigh less than 225g (UK, DE, IT) and less than 219g (FR, ES) (see page 2 for details),
- letter-size dimensions (see page 2 for details),
- priced at £9 or less (including VAT) in the UK and €10 or less (including VAT) in DE, IT, FR and ES,
- have sold more than or equal to 10 units in the last 4 weeks (or are expected to sell in the next 4 weeks if the ASIN was created in the last 90 days).

For the complete eligibility criteria and details on how to enrol, please visit the [help page](#). Please note, your offers enrolled onto Small and Light will not be eligible for EU Export, the European Fulfilment Network or Pan-European FBA.

International selling

Q: What are the international Fulfilment options?

A: Fulfilment by Amazon offers three international Fulfilment solutions: Pan-European FBA, European Fulfilment Network (EFN) and Multi-Country Inventory (MCI).

Q: What is Pan-European FBA?

A: With Pan-European FBA, sellers send their inventory to one local Fulfilment centre and Amazon distributes it to all 6 European marketplaces based on demand. Only local fulfillment fee apply*. Participation in CEP and tax registration in 7 countries is a requirement, for which Amazon offers tax packages. Find further information on the [Amazon Services website](#).

Q: What is EFN?

A: With European Fulfilment Network (EFN) you can reach local customers in all 6 European Marketplaces with local product listings. For example, an Italian customer shopping on Amazon.it can see products sold by a UK seller with a product listing translated in Italian, and buy it for delivery to Italy.

Q: What is MCI?

A: Multi-Country Inventory (MCI) allows you to send items directly to international Amazon fulfilment centres for storage in the other marketplaces that are not your home marketplace. Just like Pan-European FBA, only local FBA fees apply; however, you need to manage inventory and demand forecasting yourself.

Q: Can I charge different prices for the same product on different marketplaces?

A: Yes.

Q: What are the tax implications of international selling?

A: If you sell goods in any EU country, it's likely you may be required to register for Value Added Tax (VAT) in each country you sell in. Visit Amazon's VAT Knowledge Centre to [get started with our helpful guidance](#). Remember: it's the responsibility of each Amazon seller to ensure they are VAT-compliant and you should seek professional advice if you are unsure of your obligations.

Q: Will my international orders be eligible for fast delivery options to customers and Amazon Prime?

A: All orders will be eligible for Amazon Prime, regardless of marketplace. However, only orders shipped within the country of the customer's delivery address will be eligible for 1-day delivery and other fast delivery options.

*Local fulfillment fee doesn't apply for oversize products
