

## **User Manual of Product 1:**

Crompton Energion HS 1200 mm (48 inch) BLDC Ceiling Fan  
Energy Efficient 5 Star Rated High Speed with Remote (Ivory)

## PAIRING PROCEDURE

Fan is already paired with the remote at the factory itself. In case of any pairing issue following procedure can be used for pairing.

- a. After powering on the fan from main supply, press button "**OFF**" on fan remote followed by button "**1**" one after the other within 10 seconds of powering on the fan. Fan will acknowledge by giving 2 beep sounds.
- b. One Fan can be paired with maximum of two remotes and both remotes can be used with that fan. In case a third remote is paired, first - in remote will go out and last - in remote will be set in.
