

K3 Mini Key Chain Flashlight User Manual

★ Operation :

- ① Tighten/loosen the head to turn on/off flashlight
- ② Rotate the head repeatedly to select needed output moonlight-low-high
- ③ Fast rotate the head on and off in 1 second , flashlight will strobe

★ Specification:

1. Emitter: CREE XP-G2 LED with 50 000 hours life span
2. Battery: One AAA (1.2 volt rechargeable Ni-Mh or 1.5 volt alkaline battery)
3. Reflector: aluminum alloy orange peel reflector
4. Lens: Anti-reflection coating tempered optical lens
5. Body: Aerospace grade aluminum alloy with durable Type III hard anodize coating
6. Output : four modes three output levels (Moonlight-Low-High-Strobe)
7. Circuit: High efficient constant current circuit, constant output, more
8. brightness and longer run time
9. Reverse polarity protection to prevent damage from improper battery installation
10. Waterproof: IPX8 waterproof, works in rain or shallow water
11. Included accessories :Key-chain, pocket clip, O ring
12. Size: 70 mm (length) *14mm (body diameter)
13. Net weight: 12 gram, light weight and easy carry

★ Parameters:

ANSI/NEMA FL1				
	Moonlight	Low	High	Strobe
Brightness	0.1LM	15LM	150LM	150LM
Run time	120 hrs	6.5 hrs	0.5hr	/
Beam distance	45 meters			
Peak beam intensity	513 cd			
Impact Resistance	1 meter			
Waterproof	IPX8, 2 meters underwater			

Note: Above data are tested by one 1.2V AAA battery under lab condition, the data may vary between flashlights, batteries and environment

★ FAQs:

I could not turn on the light normally or it flickers ,how to deal with this?

(1).Check your battery:if the light can not be turned on or it flickers,pls check and see if the battery is used up and replace with a new one.

(2).Clean the contact end and electricity conduction surface:if the light still can not be turned on after replacing a new battery ,pls check if there is dust on the positive or negative end,or on the electricity conduction surface,if so pls use a clean cloth to clean the surface.

(3).If neither of the above solutions works,pls contact your dealer and follow the warranty procedure to repair/replace your light.

★ Warning:

1,Nitefox flashlight is too bright to look directly into your eyes.

2,Keep away from children nor handle it by children without adult' s supervision

3, After long periods of use on the highest setting, the surface area may get hot. It is recommended to use lower mode than high mode to prevent any harm to LED, circuit or batteries.

4,Use the highest quality batteries to insure maximum performance and safety. Use quality battery is a better choice. Poor quality battery nor unprotected batteries are not recommended to use in this light.

★ Warranty:

Two years free repair

Nitefox products provided 2 years free warranty after purchase, products defects, failure or quality problem during normal use during this period will get free repair. (One way shipping cost will be covered)

Thanks for your purchase Nitefox quality products, any question or problems, pls don' t hesitate to email us service@nite-fox.com , we usually reply within 12 hours.
