

Which phones and tablets can I use with my Fitbit watch or tracker?

To set up, sync, receive notifications, and take advantage of other features of your Fitbit device, you must install the Fitbit app on a compatible phone or tablet. The Fitbit app is compatible with most popular phones and tablets. We're continually adding more devices and improving our compatibility, so if you don't see your device on the list check back soon.

Alternatively, you can use the Fitbit app for Windows 10 on your computer, or use Fitbit Connect to sync with a Mac or Windows 8.1 computer to access your data and take advantage of the many features of your Fitbit device.

Make sure you downloaded the latest version of the Fitbit App.

Is My Phone Operating System Compatible With the Fitbit app?

To use the Fitbit app you must have one of the following operating systems installed on your phone or tablet:

- Apple iOS 11 or higher
- Android OS 7.0 or higher
- Windows 10 version 1607.0 or higher
