

Square Reader

Getting Started

ACCEPT CREDIT CARDS ANYWHERE

Square Reader works with any Square point-of-sale app to take payments on your smartphone or tablet. Plug your Square Reader into the headset jack or Lightning port of your device and never miss a sale again.

TAKING PAYMENTS

This Square Reader accepts magnetic-stripe cards. Learn more about contactless payments and chip cards at square.com/contactless-chip.

1. Download and open any Square point-of-sale app.

2. Enter a custom amount or select items to sell.

3. Plug Square Reader into the headset jack or Lightning port on your device with the Square logo facing you. Wait until "Reader Connected" appears in the Square app.

4. Tap **Charge**, then swipe the card through the slot with the front of the card facing you.
