

Sure Fire lampe G2X Law Enforcement noir

Sure Fire lampe G2X Law Enforcement noir

Specially designed to meet the needs of law enforcement professionals, the SureFire G2X™ LE is a higher-output version of our best-selling G2X™ Pro that leads with high output on its first press or click. It features a high-performance LED that generates a max output of 400 lumens of blinding white light focused by a parabolic reflector into a versatile beam with significant reach and ample surround light for maintaining good situational awareness, crucial in law enforcement. At its lower output the G2X LE produces a useful 15-lumen beam that provides extended runtime on a set of batteries, for tasks that don't require as much light.

A click-style tactical tailcap switch controls the light's output—simply press or click to unleash all 400 lumens in momentary- or constant-on mode, an important feature for law enforcement applications where instant access to maximum output provides a tactical advantage. Return to off and press or click again within two seconds for G2X LE's lower-output 15-lumen beam.

Featuring a lightweight, durable Nitrolon® polymer body designed for a secure hold, a Mil-Spec hard-anodized aluminum head, and O-rings and gasket seals to keep out moisture and dust, the G2X LE is as rugged as it is functional. It makes an ideal duty light for anyone who wears a badge—or a perfect everyday-carry light for anyone who demands a professional-grade flashlight that'll take on just about any situation.

Features

- Virtually indestructible LED emitter is regulated to maximize output and runtime
- Two output levels—high for maximum light, low for extended-runtime
- Parabolic reflector creates smooth, optimized beam with plenty of reach and surround light
- Dual-output tailcap switch meets needs of law enforcement—press for momentary-on high, click for constant-on high; return to off and press or click again for low
- Tough Nitrolon® polymer body and Mil-Spec hard-anodized bezel
- Weatherproof—O-ring and gasket sealing
- Backed by SureFire's No-Hassle Guarantee
- Includes energy-dense 123A batteries with 10-year shelf life

Additional Information

Follow the instructions of the manufacturer

Article-no.:	SF-G2XLE-BK
Size:	ø Head 3.175 cm
Length:	13.2 cm
Weight:	124.7 g
Material:	Aerospace Aluminium
Color:	black
Switch:	Push-button switch
Battery:	2x CR123A
Rechargeable battery:	-
Range:	-
Lumen:	High: 400 Lumen / Low: 15 Lumen
Run time:	High: 2.25 h / Low: 45 h
Lamp :	LED
Temperature range:	-
