ProFlow PM2000 Performance Electric Pressure Washer

How To Set Up:

1. Choose between Locking Casters for mobility or rubber foot pad for stationary use.
2. Attach standard garden hose to Brass Quick Connect coupled to Ultra Clear Translucent Water Filter, threaded onto backside of ProFlow PM2000.
3. Use Standard or Compact Pressure Washer Barrel Length
4. Attach 20 ft long High Pressure Hose to water outlet on frontside of ProFlow.
5. Connect Pressure Washer Gun to Rubber Hose using quick connect on underside of gun.
6. Run water source through unit to bleed off trapped air.
7. Connect ProFlow PM2000 to electrical outlet.
8. Turn ON machine.

How To Use:

1. Insert desired (0-60) degree spray tip for job, pull back on brass sleeve quick connect, and lock securely.
2. Spray object using a minimum distance of 12 to 18 inches.

How To Use With Foam Cannon:

1. Connect Foam Cannon* onto Pressure Washer Gun Barrel (Compact or Long) using 1/4" Brass Quick Connect.

How To Use With Snubby:

1. Thread included adapter onto bottom of TORQ Snubby Attachment to mate to 20 ft Rubber Hose.
2. Pull back plastic sleeve/ring and insert 20 ft Rubber Hose and lock securely.
3. *adapter may be needed if you are not using a TORQ foam cannon.
