Important Information About Your Poster ‘Children's Games’ (SKU 129493_25570_0)

Please read this information carefully before hanging your poster and keep it for future reference.

1. Instructions for use

- Use your poster exclusively for its intended purpose – as decorative wall art for indoor spaces.
- Keep it away from open flames, heat sources and moisture.
- Do not use harsh cleaning agents or sharp objects, as they may damage the surface.
- Clean the poster only with a dry, soft and lint-free cloth. Do not use any liquids.

2. Material information

- Our posters are printed on high-quality, FSC®-certified premium paper. The material is sensitive to moisture and temperature fluctuations – avoid damp rooms and direct sunlight to prevent curling or fading.
- In rooms with high humidity, such as bathrooms or kitchens, the paper may curl. We recommend hanging your poster only in dry indoor spaces.
- Immediately after unpacking, your poster may have a slight odour. This is caused by the UV-resistant printing inks and the packaging material.
- The odour is not harmful to health. It will dissipate after a short time – ideally, ventilate the room well.

3. Safety instructions

- For the best results, we recommend displaying your poster in a suitable frame or using appropriate poster hangers. This way, the poster is kept flat and protected.
- If you use adhesive tape or poster strips, ensure they are suitable for use on paper to avoid damage when removing them.
- Avoid creases and fingerprints by handling your poster only by the edges or by using cotton gloves.
- Remove dust regularly with a dry, soft cloth to keep the colours vibrant for a long time.
