

Thanks for your purchase of the Anker Premium 5-in-1 USB C Hub!

To ensure you get the best performance, we want to share some important information.

1. HDMI Port

If you want 4K definition, please note this hub can only support 30Hz frequency.

If you want 60Hz frequency, please set the definition of your device to 2K.

2. USB 3.0 Ports

These ports are intended for data transfer and only provide a minimal 0.5A output.

For a stable connection, connected devices should not exceed a combined current of 0.9A.

Not intended for use with high-power devices.

3. SD / micro SD Card Reader

Swap and sync nearly all SD card formats with the micro SD and standard SD card slots.

SDHC, SD card, RS-MMC, MMC micro, micro SD, micro SDHC, micro SDXC. (A case is required when using the MMC micro card type.)

Below are some devices incompatible with this item:

iPad Pro 2018

Nintendo Switch

Apple USB SuperDrive

Last but not least, please remember that your Anker Premium 5-in-1 USB C Hub comes with an 18-month warranty.
