

SZMDLX 3-In-1 Bluetooth 5.0 Audio Transmitter/Receiver Adapter User Manual

The extremely portable and lightweight wireless audio transmitter/receiver adapter is an ideal wireless audio solution for a wide range of situations and uses.

3-In-1 Mode

1. Transmitter Mode (TX)

Wireless transfer audio from your non-Bluetooth TV, home stereo system, or CD player to your Bluetooth headphones or speakers.

2. PC Audio Transmitter Mode

Wireless transfer audio from the PC to Bluetooth headset or speaker through USB port, no audio cable is required.

3. Receiver Mode (RX)

Wireless transfer audio from your Bluetooth-enabled phone, tablet, or computer to your wired stereo, speakers, or headphones.

Mode Switching

Switch the mode by toggling the TX/RX switch.

Pairing Method

1. TX Mode

TX mode will automatically search for other Bluetooth receiving devices (such as Bluetooth headset, Bluetooth speaker, Bluetooth receiver, etc.). The red light flashes during pairing, and stops flashing after pairing successful. Connect the product to a device such as a TV with a 3.5 audio cable/RCA audio cable.

2. TX Mode on PC

Insert USB into the computer's USB port, it will automatically search for other Bluetooth receiving devices (such as Bluetooth headset, Bluetooth speaker, Bluetooth receiver, etc.). The red light flashes during pairing, and always on after pairing succeeds.

3. RX Mode

(Pairing name: ZF-169) Find 'ZF-169 Plus' in the Bluetooth settings of the phone you want to pair. The blue light flashes during the pairing, and stops flashing after the pairing successful. Connect the product to the audio device with a 3.5 audio cable.

Ultra-Portable Audio Streaming Power Supply

The 'ZF-169 Plus' is compact but has powerful wireless audio streaming capabilities. Put this transmitter/receiver in your backpack or laptop bag and take it on-the-go without the slightest effort.

Broad Compatibility

With the included 3.5mm cable, this transmitter/receiver adapter can be widely used in your computer, laptop, home stereo system, headphone, smart phones, Mp3 player, CD player, etc.
