

Support: Fish Mate F14 Aquarium Fish Feeder (207)

Why is the rotor not turning?

Check the rotor is the correct way up (the text should be readable).

How do I set the current time?

Set the indicator arrow to point at the current time on the inner dial.

Why is food clogging?

In humid conditions this can happen. Connecting an airline should resolve this.

Can I use this feeder with a garden pond?

No. It is an aquarium feeder and designed for indoor use only.

How many meals can be set in 24 hours?

Up to four with meal pegs supplied. Up to eight with extra meal pegs, available from our website (Part No. 902).

What food can I use?

It is designed to be used with both flakes and pellets.

Can I get spare meal pegs?

Yes. Meal pegs are available to order on our website.
