# Thank You!

Here at Linenspa®, we appreciate you. Our mission is to provide quality bedding everyone can afford, and knowing you're satisfied with your Linenspa mattress topper helps us sleep better at night.

We wouldn't be here without you and while we may not know exactly who you are - you'll forgive us for that, right - we warmly welcome you to the Linenspa family.

## Linenspa®

### It's Unboxing Time

It may not look like a mattress topper yet, but follow these five simple steps and watch this box transform into a comfort layer you can't wait to sleep on.

1. Pull your new topper out of the box and admire its likeness to an adorable sushi roll.
2. Position topper wherever you want it to decompress. We recommend on a bed, but wherever will do.
3. Carefully cut outer plastic and roll topper into place. Don't worry, it's light enough to move later.
4. Even more carefully cut inner plastic, then step back and watch your topper grow.
5. Remove plastic covering, allow your topper to fully decompress, and sleep like a baby.

**Pro Tip:** Topper will expand more quickly in a warm room and may take up to 48 hours to fully decompress.
