

Keyboard pairing way:

1. turn off the keyboard power and unplug USB receiver.
2. Turn on the keyboard power, press and hold “ESC”+ “+/=” until third led is light(Attached pls find the picture for your reference)
3. Release “ESC”+ “+/=”, plug USB receiver to USB ports quickly, pls move keyboard closer to receiver within 7 INCHES.

If the first led is light and third led is off, pairing success.

Mouse pairing way:

1. Turn off the mouse and unplug the USB receiver;
2. Turn on the mouse, Press and hold left button key & scroll wheel & right button key simultaneously within 10s; the mouse led will light in red
3. Release left button key & scroll wheel & right button key plug USB receiver to usb port quickly (pls move mouse closer to receiver within 20 CM)

If the power led is off, pairing success.
