

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Restrictions: Do not use on puppies under 12 weeks old. Do not unroll collar until ready to use. This collar is intended for use only as an insecticide.

Application Instructions:

REMOVE THE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE THE INSECTICIDE.

Place the collar around the dog's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move around the neck. A properly fitted collar is one that, when fastened, will snugly slide over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet. For continuous protection under normal conditions replace the collar every seven months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently. However, do not replace the collar any earlier than 5 months.

Wetting will not impair the collar's effectiveness or the pet's protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The collar may be worn with a regular collar.
