

Garmin Connect App Compatibility Requirements

The Garmin Connect app can be installed on an Android or iOS device. Devices must meet the following minimum compatibility requirements:

Apple iOS:

- iOS 13 or higher
 - Compatible with iPhone, iPad, iPod Touch
-

Android:

- 7.0 [Android Operating System](#) or higher
- Compatible with phones and tablets
- Device must natively support [Google Play Store](#)

NOTE: Phones that feature [Android \(Go edition\)](#) will list the Garmin Connect app as incompatible in the Play Store due to limitations making it incompatible.

The following phone models did not pass internal tests with some of our devices. The phone and device may work together, but may require continued [Garmin Connect App Bluetooth Troubleshooting](#).

- Huawei phones
