Product Overview

USB-A cable

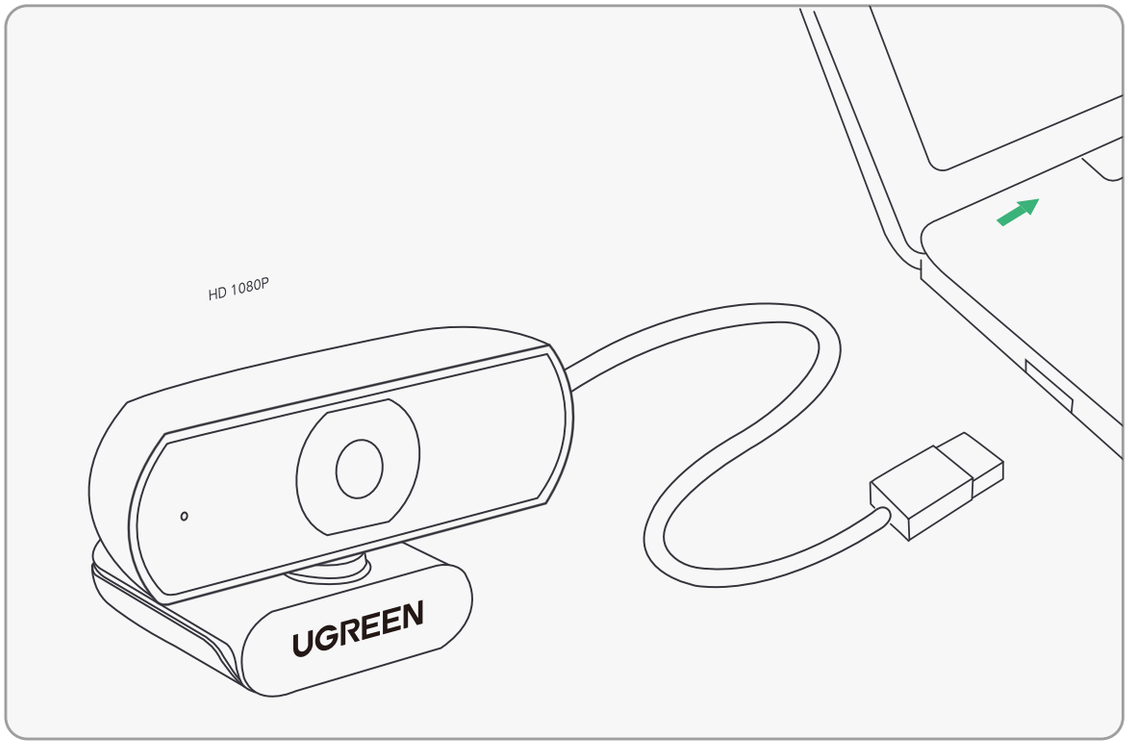

I . Set Up

A. Clip the webcam securely onto the top of the monitor.
B. Place the webcam on your desktop.
C. Mount the webcam onto a tripod (sold separately).

II . Use

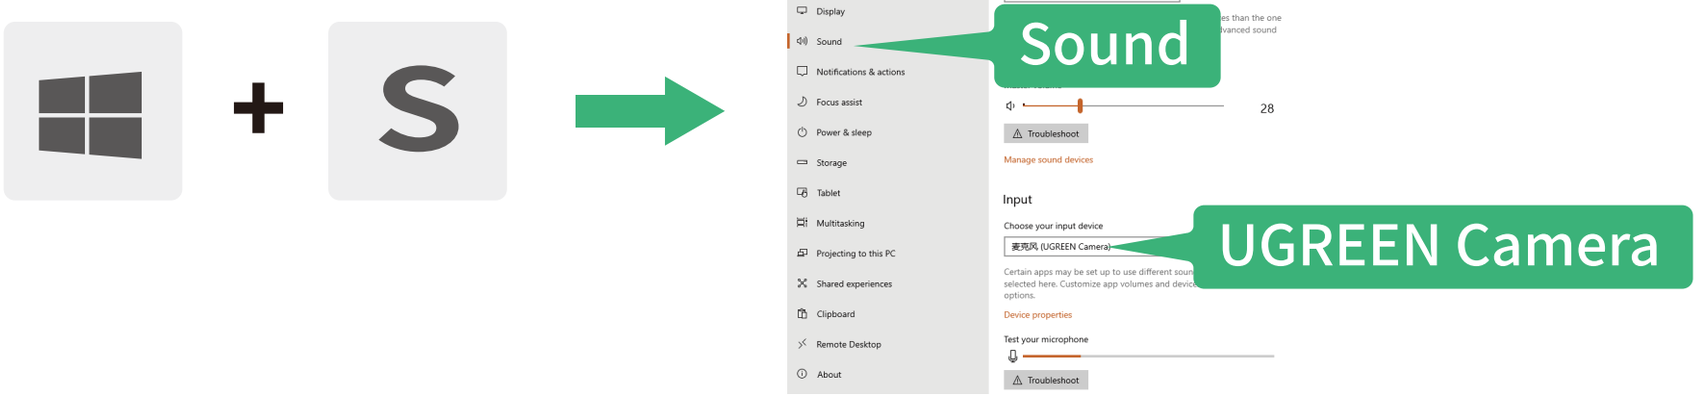

❶ Connect the webcam to the computer.

❷ Set this webcam as a sound input device.

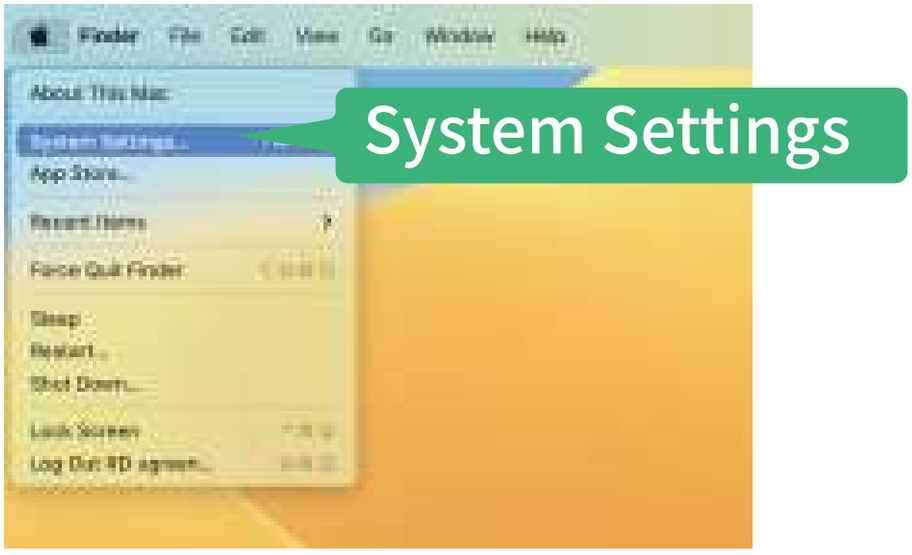

① Take Windows 10 as an example

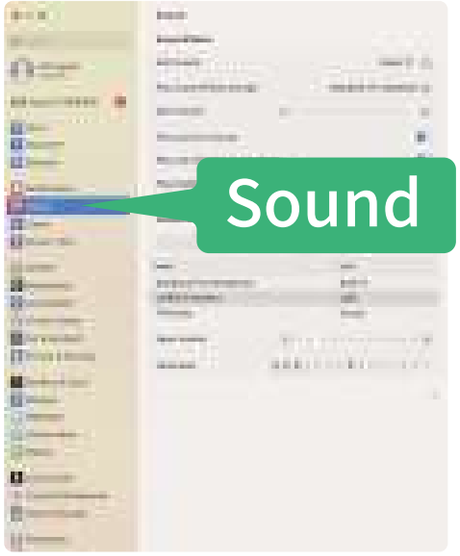

Press the " Windows+S" key, type "Sound" in the search bar and click Enter key, then select "UGREEN Camera" as the input device.

② Take macOS Ventura 13.2.1 as an example

Go to "System Settings" > "Sound", click "Input", and then select "UGREEN Camera" as the input device.

3 Switch cameras.

① Take Windows 10 as an example

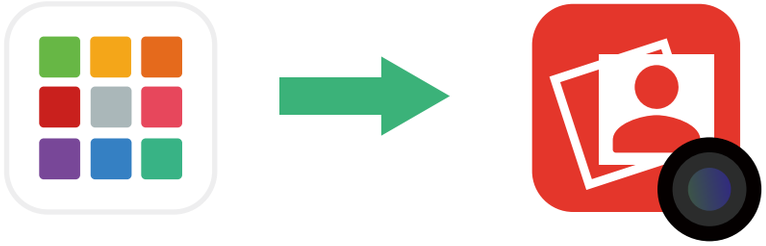

Press the" Windows+S" key, type "Camera" in the search bar and click Enter key.

Tip: If the computer has a built-in camera, please click the camera switching icon in the camera app.

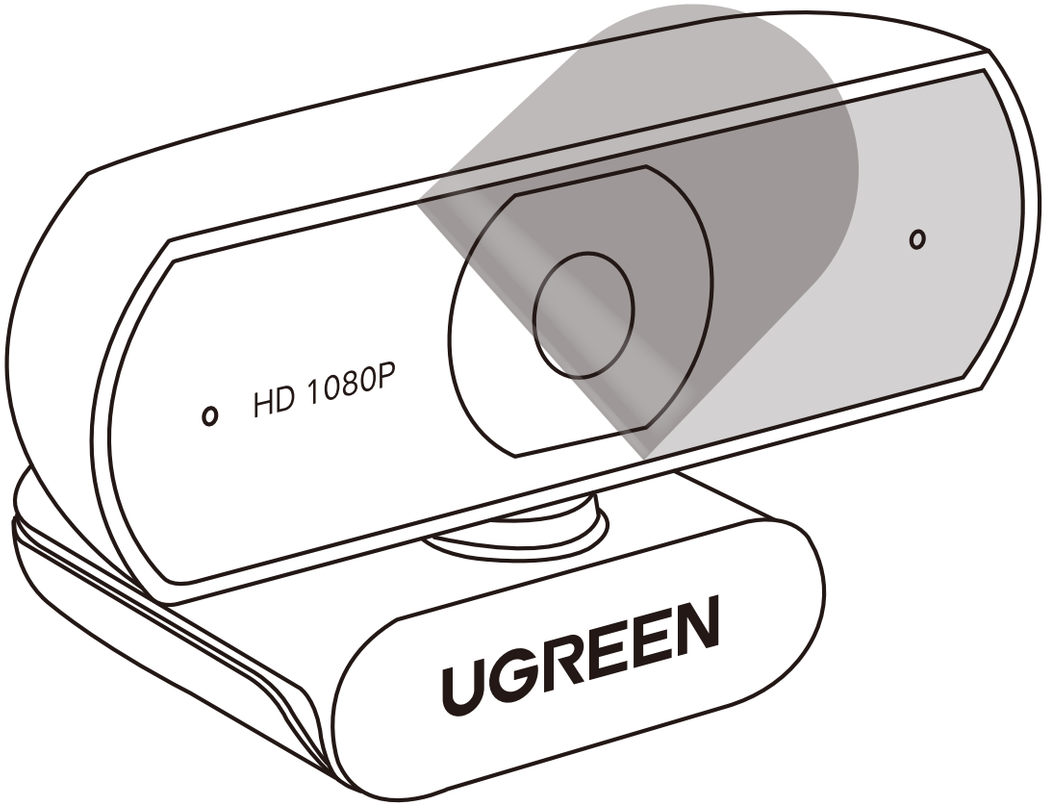

② Take macOS Ventura 13.2.1 as an example

Click the“ Launchpad”, select and open“ Photo Booth”, click "Camera" in the menu bar, and select "UGREEN Camera" as the current camera to be used.

4 Remove the protective film and start using it.
