

**What is eco+?**

eco+ comes automatically enabled to unlock additional energy savings. It works in the background to deliver maximum energy efficiency and comfort with minimal effort. [Learn more about eco+](#).

**Schedule Assistant**

Learns your routine and recommends changes to your thermostat schedule to better match it.

**Smart Home & Away**

Uses Smart Thermostat's built-in occupancy sensor to automatically adjust the temperature for energy savings when you leave home and restore your comfort settings when you return.

**Adjust Temperature for Humidity**

Takes indoor humidity levels into account to ensure your home is energy efficient and always feels like the temperature you've set, no matter the humidity.

**Time of Use**

Intelligently preheats or precools your home when electricity is cheaper and reduces usage when it's expensive, saving you money and using cleaner energy.<sup>2</sup>

**Community Energy Savings**

Makes slight temperature adjustments during times of peak energy demand in your community, consuming cleaner energy and reducing strain on the energy grid without sacrificing comfort.<sup>2</sup>

**Pause when Open**

If a window or door is left open for 5 minutes ecobee will alert you and automatically pause your heating or cooling, saving you money while helping the environment. SmartSensor for doors and windows and an ecobee Smart Security subscription required to access this feature.

**Remote Control**

Controllable through many devices, like your Smartphone, Tablet or Apple Watch.

**Integrations**

Works with preferred smart home systems like Apple HomeKit, Amazon Alexa, Google Assistant, SmartThings and IFTTT.

ecobee Smart Security

**Multi-talented monitoring**

The only home security option where your smart thermostat doubles as a hub to monitor, detect, and alert you to unexpected activity. \* ecobee Smart Security plan required

**Outsmart intruders**

ecobee home monitoring uses smart thermostat's advanced sensor, Wi-Fi, and geofencing technology to understand when your home is empty or occupied. \* ecobee Smart Security plan required
