

TECHNICAL DATA SHEET

PETSTANDARD ODOR ELIMINATOR

Revision date: 04.06.2024

Article number:	PS00175
Color:	Turbid
Intended use:	Home cleaning/pet-related surfaces/odor eliminator
General characteristics:	PetStandard Odor Eliminator is formulated with the highest possible concentration of microorganisms to completely eliminate all organic odors and stains such as urine, feces, vomit, etc. at the source. Specially engineered bacteria consume organic matter as a food source and produce enzymes that break down the molecular structure of odor-causing components.

TECHNICAL CHARACTERISTICS

Physical state: liquid
Odour: Waterlily & Aloe
pH: ca. 6
Density: 1.00 g/cm³
Solubility in water: very soluble

APPLICATION PROCESS:

- Remove the source of contamination. Do not apply other cleaners.
- Shake bottle well before use. Then test the product on a small concealed area first to ensure compatibility.
- Spray the product generously onto the stain, slightly beyond the visible boundaries of the stain. Make sure the area is completely soaked.
- Rub in/massage with a clean cloth.
- Leave the treated area overnight. If the odor or stain persists, repeat the procedure the next day until it is fully eliminated.

SHELF LIFE: 3 years. Store in a cool and dark place. Protect from frost.

This release replaces all eventually earlier issued versions. For additional information, not contained in this technical data sheet, please contact the supplier under: e-mail: info@petstandard.de For safety information, please refer to the corresponding Safety data sheet.
