

Activating Your iPhone 15

Important instructions for activating your new iPhone 15 via eSIM

How to Activate Your New iPhone

Once your new iPhone arrives in the mail, follow these steps to get activated on our network:

1. Connect your new iPhone to Wi-Fi.
2. Use Quick Start to set up your new iPhone and transfer your data (if applicable).

! IMPORTANT STEP

When Quick Start is complete, your new iPhone will prompt you to “Set Up Cellular”. Select “Not Now”. We’ll activate your device in the next step.

3. Visit boostinfinite.com/activate and follow the on-screen instructions. Here, you’ll activate your new iPhone and transfer your number, if you want. For details on what you’ll need to transfer your number to Boost Infinite, visit our [Number Transfer Guide](#).

Accidentally Tapped "Set Up Cellular"?

No worries! Connect with one of our Boost Buddy Activation Specialists by calling (866) 957-8278.

Number Transfer Guide

We've broken down the number transfer process by carrier.

Keep your number

You'll need the following information from your current carrier to transfer your number to Boost Infinite:

1. Account number
2. Account owner's name
3. Account billing address
4. Number transfer PIN (port-out PIN)

Note: Numbers 1-3 in the list above are typically found on your bill.

For step-by-step instructions by carrier, please choose from the list below:

[T-Mobile](#)

[AT&T](#)

[Verizon](#)

[Boost Mobile](#)

[Mint Mobile](#)

[Visible](#)

! Remember

Do not cancel service with your current carrier until you complete the entire Boost Infinite activation process.
