

Instructions For Use

1. Fill clean, dry litter box with 3" to 4" of Dr. Elsey's litter.
2. Scoop waste twice daily and refill box as necessary.
3. Replace entire box once a month. Dispose of used litter in trash. DO NOT FLUSH.

Natural for Your Cats and Convenient for You

The key to having your cat always use its litter box is to keep it clean. Scoop the box daily to keep it fresh and encourage your cat to always come back. Have more than one cat...have more than one litter box. Place the litter box in a quiet place, away from noisy appliances and high-traffic areas.

A Clean Litter Box Means a Good Home for Your Cat

Establish routines for your cat. Feed your cat regularly at the same time and in the same place every day. Playtime is important, at least 15 minutes a day. Keep toys handy and a scratching post nearby. A happy, content cat is less likely to develop behavior problems.

Always wash your hands thoroughly after handling the litter box. A parasite sometimes found in cat feces can cause toxoplasmosis. Encouraging your cat to use an indoor litter box, or properly disposing of outdoor cat feces, is beneficial to overall water quality. Please do not flush cat litter in toilets or dispose of it outdoors in gutters or storm drains.
