Getting Started

Charging the Watch

1. Attach the magnetic charging cable to the back of the watch.
2. Plug the USB end into a 5V power adapter or USB port.
3. A charging icon will appear. Fully charge before first use (approx. 2 hours).

Power On/Off

- **Power On:** Long press the side button for 3 seconds.
- **Power Off:** Long press the side button → Tap **Power Off** on the screen.

Pairing the Watch

Step 1: Download the App

- Scan the QR code from the watch or search for **WearFit Pro** on the App Store or Google Play.

Step 2: Connect via Bluetooth

1. Turn on Bluetooth and Location on your phone.
2. Open the **WearFit Pro** app, register or log in.
3. Tap **Add Device** and select **HK9 Ultra 2 Max**.
4. Accept the pairing request on both devices.

Note: For Bluetooth calling, connect to **HK9 Ultra 2 Max-Audio** from your phone's Bluetooth settings as well.

Main Features

1. Health Monitoring

- **Heart Rate:** 24/7 monitoring and manual check.
- **SpO2 (Blood Oxygen):** Manual check via Health app.
- **Sleep Tracking:** Automatically detects sleep quality from 10 PM to 8 AM.
- **Step Counter:** Tracks steps, calories, and distance.

2. Sports & Fitness Modes

- Multiple sports modes including walking, running, cycling, indoor training.
- Track duration, heart rate, and calories burned.

3. Smart Notifications

- Get alerts for Calls, SMS, WhatsApp, Facebook, Instagram, etc.
- Enable/disable notifications via **WearFit Pro** app settings.

4. Gesture Control

- **Raise to Wake** screen.
- Hand gestures to control music or take photos (when synced with app).

5. Photo Album & Watch Faces

- Upload photos via the app to display in the album.
- Long-press on the watch face to change or swipe to browse new options.
- Download additional faces from **WearFit Pro** gallery.

6. Extra Tools

- Compass
- Alarm, Timer, Stopwatch
- Music Control
- Weather Display
- Find My Phone / Watch

- Split Screen & Quick Access Menu

Settings & Customization

- Access watch settings by swiping or tapping the gear icon.
- Customize brightness, vibration, language, DND mode, and more.
- Perform **System Reset** or **Check for Updates** from the Settings menu.

Charging & Battery Tips

- Use only the original charging cable provided.
- Avoid overcharging or exposing to high heat while charging.
- Battery life depends on features used, especially Bluetooth calling and screen time.

Troubleshooting

Issue	Solution
Watch won't turn on	Charge for at least 30 minutes before trying again.
Bluetooth not connecting	Restart watch and phone. Ensure WearFit Pro has Bluetooth permissions.
No notifications	Enable app notifications in WearFit Pro and phone settings.
Inaccurate health data	Wear snugly above wrist bone. Reseat sensor area if needed.
Watch is lagging or freezing	Restart the watch or perform a system reset.

Safety & Care

- Do not wear in saunas, hot showers, or during deep water activities.
- Avoid strong magnetic fields and chemical exposure.

- Clean watch with a soft, dry cloth.
- This device is not a medical instrument—use data for reference only.
