

Hive Thermostat specifications

Features

Manage your heating and hot water from anywhere using the Hive app

Add more thermostats to control up to 6 zones of heating if you have an existing multizone heating system

Frost protection protects your pipes from freezing in winter

Geolocation reminds you to switch off the heating if you've gone out and left it on

Holiday mode lets you manage your heating while you're away

Works with Alexa, Google Assistant, Apple HomeKit, Siri Shortcuts and IFTTT

Group with other Hive devices to create a smart home

Compatibility

Most gas and LPG boilers

Oil boilers if they have an existing thermostat or programmer

Electric boilers with standard room thermostat and / or programmer
