

Dear Pet Parent,

We are so happy to be part of your home!

Here is some important info to help you get the most out of your new, ultra-comfy bed.

OPENING YOUR BED:

To quickly get your bed into shape from the vacuum bag, remove the bed from the bag, shake it out completely and pull the fibers apart with your fingers to open them up. Place the bed in the dryer on low heat setting for about 5 minutes.

For a video tutorial, please visit: bestfriendsbysheri.com/pages/videos

WASHING YOUR BED:

If your bed does not have a removeable zippered cover, the entire bed can be put in the washer and dryer. Wash the bed with cold water and tumble dry on low heat.

If your bed has a removeable zippered cover, remove the cover and wash it with cold water and tumble dry on low heat.

To prevent shag fur fabric beds from matting, dry the bed thoroughly. Do not air dry.

CENTER TUFTING YOUR BED:

For Small 23" and Medium 30" sized beds, it may seem that the center does not have filling. Please note that the bed is intentionally designed with a tufted center to keep the fibers in place over time. Rest assured, there is ample amount of cushioning for your fur baby to feel comfortable.

Your satisfaction is very important to us. If you have any questions or concerns about your order, please contact us at support@bestfriendsbysheri.com

If you love us, let us know and please leave us a review!
