【Features】
Lie Detector is a really fun toy to play with your friends, especially for truth party game.
Along with the flashing red light as well as the rapid background sound, players will determine who is going to be the next victim in a tense atmosphere.
【Warm Prompt】
This is not a device that can actually test whether someone is lying.
【More Fun】
For instances - whoever is zapped the most does dishes for a week, or you get zapped you drink, etc.
The competitive mode allows for teams with more than one person being zapped at a time.
