

Dear customer,

Thanks for choosing LAMTTO C350 dash cam. A good dash cam is the rigid demand and best investment to protect yourself and family. Read this quick start guide to know more knowledge of a dash cam, make it easier to operate.

Quick Start Guide

1. Insert High Speed Micro SD Card

Please insert brand class10, U3 or higher speed, up to 256GB micro sd card before turning on the camera. SD card is not included in the package.

2. Always Connect to Power

Plug into the power using the car charger we provided and please make sure to keep the camera plugged into the power all the time.

3. Format Memory Card

After plugging, the camera will turn on to record automatically, however, we suggest you format the Micro SD Card on the camera before recording for the first time.

4. 24/7 Hours Parking Monitor

The dash cam have to install with hardwire kit if need 24 hours recording, hardwire kit is not included. You can search ASIN: B0B11JSYCP to purchase it directly or contact LAMTTO customer team if needed.
