Dear Ms. Kate Sidlar:

Re: Product Licence Issuance - NPN 80061295
Non-Traditional - Papaya Leaf Extract (Capsule)

The Natural and Non-prescription Health Products Directorate (NNHPD) has concluded that the application is in compliance pursuant to section 7 of the *Natural Health Products Regulations* (NHPR). Please find enclosed a copy of the Product Licence hereby authorizing the sale of the product described therein.

Any labels used in the marketing of this product must reflect the information outlined on the product licence and must comply with the labelling requirements as per Part 5 of the NHPR. Please note that you are responsible for ensuring that advertising claims on the label do not contravene Section 9 of the Food and Drugs Act. Additional information on acceptable advertising claims can be obtained from the "Consumer Advertising Guidelines for Marketed Health Products (for Nonprescription Drugs including Natural Health Products)" at http://www.hc-sc.gc.ca/dhp-mps/advert-publicit/pol/guide-ldir_consom_consum_e.html#a.1. Section 87 (Labelling and Packaging), specifies that you are responsible for ensuring the label text information is translated into French.

No person shall sell a natural health product unless it is manufactured, packaged, labelled, imported, distributed or stored in accordance with Part 3 - Good Manufacturing Practices of the NHPR or in accordance with equivalent requirements if the natural health product is imported. Section 44 of the NHPR outlines that each product available for sale in Canada must comply with the specifications submitted to Health Canada.

The submission of a signed Product Licence Application (PLA) form is regarded as an attestation acknowledging the licence holder's responsibility to meet the requirements set out in the NHPR and associated guidance documents relating to quality and Good Manufacturing Practices

Product licence applications and post licensing changes based partially or completely on NNHPD monograph(s) are required to submit a Monograph Attestation Form. The submission of a signed Monograph Attestation form confirms that all conditions of the attestation are met, including the acceptance of any liabilities that may arise out of selling a product outside of the conditions of the attestation for which a product licence was issued based on this attestation.
