

Care instructions:

A base that is not supportive or resists air circulation may damage your mattress . If you have a slat base or slatted bed frame, please confirm that the slats are supported in the middle of the bed with a center support leg or substantial support beam. Do not lay the mattress on uneven support and do not keep any items below your mattress.

2. Avoid sitting on the edges of the mattress and prolonged habitual sitting on the same side of the mattress, for longer durability of your mattress.

3. Bending, folding, dragging, standing or jumping on the mattress can damage it.
