Wyze Cam v3 Pro Person Detection FAQs

Brenda
Today at 04:34

Wyze Cam v3 Pro uses a powerful Edge AI microprocessor for free, onboard Person Detection—no subscription required. But we know you have questions about what that means, and we have answers!

Is it the same Person Detection you get with Cam Plus?

No, it is not the same Person Detection. It is not as powerful and does not include features like no cooldown, unlimited video, or extra verification included with Cam Plus and Cam Plus Pro.

Do I get other Wyze smart AI features for free like pet and package Detection, or facial recognition?

No, Wyze Cam v3 Pro only includes on-board Person Detection - with a snapshot image only. With Cam Plus, you get smart detection like Pet, Package, Vehicle Detection, no cooldown, and unlimited length video recordings. Cam Plus Pro gives you all that Wyze AI has to offer plus Friendly Faces.

What do you get with Wyze Cam v3 Pro's Person Detection?

	v3 Pro ONLY	Cam Plus Lite	Cam Plus	Cam Plus Pro
Price $	$0	Name Your Price	$1.99/mo	$3.99/mo
Cooldown	5 min	5 min	No cooldown	No cooldown
Recording type	Image only	12 sec video	Unlimited video, up to 14 days	Unlimited video, up to 14 days
Person Detection	Yes	No	Yes	Yes
Other Smart Detection	No	No	Yes	Yes
Friendly Faces	No	No	No	Yes

Can I also get free Person Detection on other cameras?

No, Wyze Cam v3 Pro utilizes a powerful Edge AI microprocessor that our other cameras do not have. No other Wyze cameras can support on-board Person Detection without the cloud.
