

Pros:

- It is affordable.
- Its large surface area provides enough room for cooking.
- Removable drip tray makes the cleaning process a lot easier.
- Its handles are removable and it is easy to fit in the cabinet.
- It gives even and consistent heat.
- The nonstick surface prevents sticking and burning of food.
- It comes with a warranty.
- Automatic temperature control.
- It goes up to 400 degrees to cook a variety of foods.

Cons:

- It has cold spots in the corners.
- The noticeable crisscross pattern on pancakes and eggs
- Uneven heating surface
- May discolor slightly over time
- The nonstick coating flakes off over time.
- The surface may warp over time.
