

Getting to know the Belkin SCREENFORCE Tempered Glass Privacy Anti-Microbial Screen Protector for iPhone

The **Belkin SCREENFORCE™ Tempered Glass Privacy Anti-Microbial Screen Protector for iPhone** offers advanced protection from impacts and nosy onlookers. With a 9H Pencil Hardness rating, it gives protection to your iPhone® against hard metal objects like keys and coins, as well as drops and scratches. It also features an extra anti-microbial coating that reduces bacterial growth on your screen without sacrificing touchscreen response or clarity. To know more, click [here](#).

Product Features

- Anti-microbial
- Anti-fingerprint
- Premium chemically-engineered Japanese tempered glass
- Advanced impact protection
- Reduces up to 99% of germs on the screen protector
- Easy Align tray for an easy, bubble-free home application
- Super thin 0.33 mm glass preserves touchscreen sensitivity to respond accurately to your touch
- Advanced two-way side filter reduces vision from a 30° angle
- 9H Pencil Hardness offers the highest level of scratch resistance available

NOTE: Screen protectors by Belkin undergo a standard test method for Film Hardness measurement called the ASTM D3363. This test uses the Pencil Hardness scale with 9B being the softest and 9H being the hardest. The screen protectors have a pencil hardness rating of 9H, which means your screen protectors can resist damage from materials that have a lower hardness rating than what the screen protectors are rated at.

- Warranty
 - Limited lifetime warranty in the Americas and Europe
 - 2-year limited warranty in other countries
