Water Filter

Carbon

TastePURE™

Removes foul taste and odor

Removes chlorine and sediment 150 micron fiber barrier

DATE OF FIRST USE:

_____

Always:

Install with water flowing in direction of arrow. Flush before using. Replace after 120 days. Store capped in refrigerator.

Filter Life/Replacement:

Filter life depends on water quality. Replace each camping season or when an undesirable taste or odor appears. Replace if water flow decreases significantly. Install a new filter, or try Camco's high capacity TastePURE™ KDF water filter (#40043).

Our return policy is limited to the replacement of original purchase. No other liability, responsibility or warranty is expressed or implied, including any regarding merchantability or suitability for a particular purpose.

FREE FLOW

Installation:

Flush filter before connecting to RV.

1. Attach incoming water supply (hose) to filter with arrow on label pointing in direction of water flow.
2. Turn on water and flush briefly prior to first connection to RV. Flush for one minute or until water runs clear to remove carbon fines.
3. Turn water off and attach filter to RV or watercraft using a short hose or an anti-kink device, such as the Camco Flexible Hose Protector (#22703 not included). (See figure A). Also available, 45˚ hose elbow (#22603 not included). (See figure B).

If filling a tank directly, the Filter can be attached to a Camco Flexible Water Filler (#40003 not included) for easier use. (See figure C).

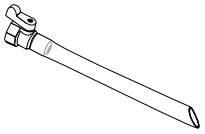

Figure A: 22703

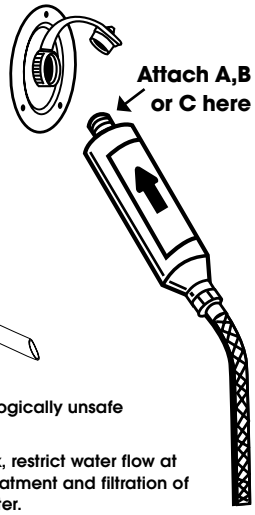

Figure B: 22603

Figure C: 40003

Warning:

Do not use where water is microbiologically unsafe or of unknown quality.

When filling fresh water holding tank, restrict water flow at supply faucet to allow adequate treatment and filtration of water. This is a "low pressure loss" filter.

Protect filter from freezing. Do not winterize with antifreeze of any type. Store capped in refrigerator.

This filter is designed for outdoor use only. A regulator must be used to limit water pressure to 60 PSI or less.

We recommend:

#40055	Brass Water Pressure Regulator
#40143	Plastic Water Pressure Regulator
#40064	Brass Water Pressure Regulator with Gauge
