

## **ghd platinum+ styler**

### **Instructions on the button**

No more guessing the correct styling temperature. All of our stylers are pre-set to the safer-for-hair temperature of 365°F: the optimum temperature for styling on every hair type. This versatile ghd hair straightener has a rounded barrel, perfect for sculpting full-bodied curls and natural-looking waves with ease.

### **How to Use:**

Suggested Usage:

- Hold the button down to turn on the tool, quick start time.
- Ensure that the styler is as close to the root as possible before closing the plates.
- Gently move toward the tip of the section in one simple gliding motion.
- Repeat the process with each section of hair, gliding once from roots to ends.
- Automatic sleep mode to switch your styler off after 30 minutes of non-use, for peace of mind
