

ATR288W

MULTIPURPOSE VHF WIRELESS MICROPHONE SYSTEM

The Audio-Technica multipurpose VHF wireless microphone system is an expansion of the PRO 88W VHF wireless microphone system for enhanced convenience, freedom of movement and performance. This multi-purpose wireless system brings additional flexibility for uses such as camcorders, karaoke, DJs, houses of worship, schools, meetings and presentations.

Each ATR288W includes two microphones: the ATR3350mW miniature clip-on condenser and the ATR1200mW handheld dynamic. The ATR3350mW clip-on mic is perfect for "hands-free" uses such as aerobics, dance, theater, lectures and "newscaster-style" video. It is designed to be worn on a tie or clothing, and a clothing clip and windscreen are included.

The ATR1200mW handheld dynamic mic is designed for applications in which it is necessary, or easier, to hold the microphone. Designed for talking and singing, the ATR1200mW microphone brings performance and flexibility to stage, recording and video uses.

The ATR288W features two user-selectable frequencies for interference-free operation: 169.505 MHz and 170.305 MHz (Model PRO 88W-T24). For detailed operating instructions, please refer to the included PRO 88W owners manual.

Microphone Specifications

ATR3350mW CLIP-ON-MICROPHONE		ATR1200mW HANDHELD MICROPHONE	
Element	Condenser	Element	Dynamic
Polar Pattern	Omnidirectional	Polar Pattern	Cardioid
Frequency Response	50–18,000 Hz	Frequency Response	80–12,000 Hz
Sensitivity	-54 dB	Sensitivity	-59 dB
Impedance	1,000 ohms	Impedance	500 ohms
Cable	0.9 m (3')	Cable	1.5 m (5')
Connector	3.5 mm mini-plug	Connector	3.5 mm mini-plug
Weight	6 g (0.2 oz) without cable	Weight	150 g (5.3 oz) without cable
Accessories Included	Clothing clip; windscreen
