

Instructions for Use SJ TRADERS Hanging Cauldron Oil Burner, Novelty Halloween Decorations, Candle Warmer Lamp & Tealight Holder, Essential Oil Diffuser & Wax Melting Burners for Home Decoration

Thank you for purchasing the Hanging Cauldron Oil Burner!

SJ TRADERS enchanting and spooky oil burner is perfect for adding a bit of Halloween charm to your home, while creating a cozy, aromatic atmosphere. Whether you're using it as a candle warmer, essential oil diffuser, or wax melting burner, it will be a fun and functional addition to your seasonal decor.

1. Setting Up the Hanging Cauldron Oil Burner

- **Place on a Stable Surface:** Position the cauldron oil burner on a stable, heat-resistant surface such as a table, countertop, or shelf. It should be kept away from flammable materials and placed in a dry area.
- **Check the Setup:** Before use, ensure that the cauldron is properly hanging and balanced. Make sure the burner is upright and stable to avoid any spills or accidents.

2. Adding Wax or Essential Oils

-

For Wax Melts:

-

- Place 1-2 pieces of your favorite wax melts in the cauldron's top dish. Make sure not to overfill, as this could cause wax to spill when melted.
- Choose high-quality wax melts (soy, beeswax, or paraffin) that are safe for use with a melting burner.

-

For Essential Oils (Optional):

-

- If you prefer using essential oils, add a few drops (5-8 drops) of your favorite oil directly into the cauldron dish.
- For a longer-lasting scent, you can also add a small amount of water along with the oils, but this is optional.

3. Lighting the Tealight Candle

- **Place the Tealight Candle:** Insert a small, unscented tealight candle into the bottom compartment of the cauldron burner. The heat from the candle will melt the wax or release the fragrance from the essential oils.
 - Ensure the candle fits snugly and securely within the holder to prevent any movement or tipping over.
- **Light the Tealight:** Use a match or a long lighter to light the tealight candle. The candle flame will begin to warm the wax or oils in the top dish, releasing a delightful fragrance into the room.

4. Using the Burner

- **Wax Melting:** Allow the wax to melt fully in the dish, releasing its scent. You can adjust the number of wax melts used depending on the strength of fragrance you desire.
- **Essential Oil Diffusing:** As the oils heat up, the scent will be gradually released into the air. Adjust the number of oil drops based on how strong you want the aroma.
- **Candle Warming:** The heat from the tealight candle will gradually warm the wax or oils, providing a gentle and continuous scent without the risk of open flame.

5. Turning Off the Burner

- **Extinguish the Candle:** Once you're done using the burner, gently blow out the tealight candle. Make sure the candle is fully extinguished and allow it to cool before handling.
- **Let the Wax Solidify:** If you've used wax melts, let them cool and solidify in the burner. You can scrape out the wax when it's hardened or store it for future use.

6. Cleaning and Maintenance

-

Wait for Cooling: Always allow the burner to cool completely before cleaning. After use, the wax or oils may remain in the top dish, so wait for it to solidify before scraping it out gently.

-
-

Cleaning the Cauldron:

-

- **Wax Burner:** For wax residue, wipe the dish with a soft cloth or paper towel. You can also use warm soapy water for deeper cleaning, but avoid submerging the entire burner in water.
- **Essential Oil Residue:** For essential oils, a damp cloth will suffice to wipe away any residue left in the dish. Avoid using harsh chemicals as they may damage the surface of the cauldron.

-

Cleaning the Candle Holder: After the candle has burned out, clean the candle holder and base to remove any wax drips or soot build-up. Use a soft cloth to gently wipe away any residue.

•

7. Safety Precautions

- **Supervision:** Never leave the burner unattended while it is in use. Always keep the burner out of reach of children and pets to avoid any accidents.
- **Avoid Overfilling:** Do not overfill the top dish with wax or oils to prevent spillage once heated.
- **Heat and Fire Safety:** Always ensure the burner is placed in a safe location, away from any flammable materials like curtains or paper.
- **Use Only Approved Candles:** Only use small, unscented tealight candles designed for wax melting burners to ensure safety.

8. Seasonal and Decorative Use

•

Perfect for Halloween and Beyond: While perfect for spooky, Halloween-themed decor, the Hanging Cauldron Oil Burner is also suitable for year-round aromatherapy and home decoration. Its novelty design makes it an ideal piece to complement your seasonal decorations.

•

•

Gift Idea: The cauldron oil burner also makes a fun and functional gift for Halloween lovers, home decor enthusiasts, or anyone who enjoys a relaxing aromatic environment.

•

Enjoy the delightful fragrances and the spooky charm of your Hanging Cauldron Oil Burner! Whether you're relaxing at home, entertaining guests, or simply adding some Halloween magic to your space, this burner will help set the perfect mood.
