

We recommend regularly updating your Displaylink driver and downloading the Displaylink driver for your Mac OS version to ensure proper video functionality. Thank you for supporting Minisopuru !

The corresponding Displaylink driver for the Mac OS system version is as follows:

### 一、 Mac OS 10.14 and above: Please install the latest DisplayLink driver 1.8

The installation link is as follows:

<https://www.synaptics.com/products/displaylink-graphics/downloads/mac-os-connectivity-1.8?filetype=exe>

FAQ1: macOS Ventura: Handling Ventura login items:

<https://support.displaylink.com/knowledgebase/articles/1995958-displaylink-manager-app-handling-ventura-login-items>

FAQ2: macOS Ventura: Installation failed

<https://support.displaylink.com/knowledgebase/articles/2002168-macos-ventura-installation-failed>

FAQ3: macOS Monterey: enable notifications when DisplayLink screens are active:

Fifth: <https://support.displaylink.com/knowledgebase/articles/1932214-displaylink-manager-app-for-macos-introduction-in#notification>

### 二、 Mac OS 10.12, Mac OS 10.13.4-10.13.6 version: Please install DisplayLink driver v4.3.1.

The installation link is as follows:

<https://www.synaptics.com/node/2161>

1. Please check the following link for instructions:

<https://support.displaylink.com/knowledgebase/articles/1849327-important-information-on-macos-10-13-4-10-13-6>

2. How to set up AirPlay:

<https://support.displaylink.com/knowledgebase/articles/1854724-how-to-enable-an-extended-displaylink-display-on-macos>

3. How to set DisplayLinkDriver.kext:

<https://support.displaylink.com/knowledgebase/articles/1188004>

### 三、 Mac OS 10.11 and earlierVersion: Please install DisplayLink driver (5.0.1)

The installation link is as follows:

<https://www.synaptics.com/node/2206?filetype=exe>

Note: The best way to try the new DisplayLink Manager app is to first uninstall current DisplayLink Software and then install DisplayLink Manager app. Otherwise application will notify you that it is unable to work, which could be seen via system notification and in application.

## How to check your Mac OS system version?

From the Apple menu in the corner of your screen, choose About This Mac. You should see the macOS name, such as macOS Ventura or macOS Monterey, followed by its version number.

## How to identify the DisplayLink software version installed on Macbook?

TO IDENTIFY THE VERSION OF SOFTWARE INSTALLED ON MAC OS

- 1、 Choose About this Mac from the Apple menu
- 2、 Click on More Info...
- 3、 In the Contents sidebar select Extensions from the Software section
- 4、 Scroll the list to reveal the DisplayLinkDriver extension information
