### ~Rice Cooker Glossary~

**Capacity:** Capacity is measured in cups of raw rice in the measuring cup that comes with the rice cooker (about 6 oz.). They yield about double that amount of cooked rice. A 5 cup rice cooker would be enough for a meal for a family of 4. It is ideal to cook rice to the rice cooker's capacity for better tasting rice.

**Nonstick Coating:** All Zojirushi rice cookers come with a nonstick coated inner cooking pan. The nonstick coating makes serving and cleaning easy and falls within the safety standard set by FDA.

**Timer:** The delay timer feature allows you to set the rice cooker to complete cooking at a specific time. Set the rice cooker to complete cooking when you wake up in the morning or when you come home in the evening.

**Stay Cool Side Handles:** The inner cooking pan has convenient stay cool side handles for easy removal and cleaning.

**Micom:** The rice cooker is fitted with a microcomputer chip that adjusts cooking time and temperature according to the menu selected.

**Neuro Fuzzy®:** *Neuro Fuzzy®* is a Zojirushi's trademark designating the most advanced micom (micro computerized) rice cookers.

**IH (Induction Heating):** Instead of having a heating element at the bottom of the rice cooker to heat the inner cooking pan, the rice cooker uses induction heating (IH) principles to generate heat within the inner cooking pan.

**Automatic Keep Warm:** Once the rice is cooked, the rice cooker goes into keep warm mode to keep the rice tasting fresh until served or up to 8 hours.

**Accessories:** All Zojirushi rice cookers come with a rice measuring cup and rice spatula.

The Story About Zojirushi: Zojirushi (pronounced 'zoh-jee-ROO-shee') began in Japan in 1918 as a manufacturer of hand-blown vacuum bottles. Today, Zojirushi's product line extends to high-end small appliances such as rice cookers, breadmakers and coffee makers, high-quality vacuum insulated products like vacuum bottles, lunch jars and carafes, and products that make the home a more comfortable place to live, including air purifiers and humidifiers. Recently, Zojirushi has enhanced the focus on design and how appliances fit into everyday lives with the introduction of their ZUTTO Collection and RIZO. The name Zojirushi means "Elephant brand" in Japanese.
