Google Pixel Buds A-Series – Truly Wireless Earbuds

Specifications

- **FEATURES:** No features description available,
- **BRAND:** Google,
- **COLOR:** White,
- **MANUFACTURER PART NUMBER:** GA02213-US,
- **ASSEMBLED PRODUCT DIMENSIONS (L X W X H):** 2.30 x 3.20 x 3.60 Inches

Introduction

To your ears, this is melody. Pixel Buds A-Series (White) wireless earbuds produce high-quality music thanks to custom-designed 12 mm dynamic speaker drivers. Designed with your ears in mind. The wireless earbuds stay in position and offer a soft seal for great sound thanks to a flush-to-ear design, three ear tip sizes, and a stabilizer arc. When you need assistance, ask for it. Simply say “Hey Google” or press and hold the earpiece to chat to Google to play music, check the weather, or have notifications read to you.

It has a Long-lasting battery. On a single charge, you can get up to 5 hours of listening time or 2.5 hours of speaking time, or use the charging case to listen for up to 24 hours. Rainy days and sweaty workouts are no problem because the earbuds are water-resistant. Other devices get along with them. In just one swipe, pair your Pixel Buds A-Series wireless earbuds with your Pixel or any Android device. 1 Connect to iOS or any other Bluetooth® 4.0+ device fast and easily.

HOW TO USE

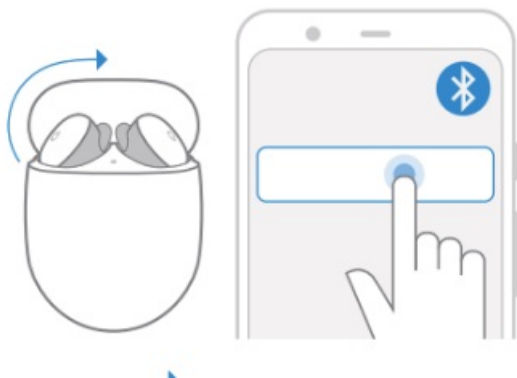

- Make a connection and get started. In just one swipe, you can pair your Pixel or any Android device.
- Keep your batteries charged. On a single charge, get up to 5 hours of listening time or 2.5 hours of speaking time, and listen for up to 24 hours with the charging case.
- They’re easy to find.

QUICK START INSTRUCTIONS

STEP 1: CONNECT

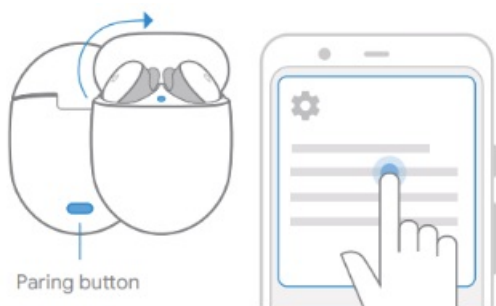

YOUR GOOGLE PIXEL OR ANDROID 6.0+ DEVICE FIRST.

1. Remove the wireless charging case from the Google Pixel Buds. Make sure the earbuds and charging case are both charged (both inside and out with white statuslights) and keep the case near to your phone.
2. Check that your phone is unlocked and that Bluetooth and Location are both turned on.
3. Press and hold the pairing button on the wireless charging case's back until the light begins to pulsate white. Follow the on-screen instructions after tapping the Google Pixel Buds pairing notification.

OTHER GADGETS

1. Remove the wireless charging case from the Google Pixel Buds. Ensure that the earphones and charging case are fully charged (both inside and outside, white status lights) and keep the case close to your phone.
2. Check to see if your phone is unlocked and Bluetooth is turned on.
3. Press and hold the pairing button on the wireless charging case's back until the light begins to pulsate white.
4. From the list of Bluetooth devices, choose Google Pixel Buds.

STEP 2: FIT

1. Check that the ear tip is securely fastened to the earbud and does not easily come loose.
2. Insert your earbuds gently. The earbuds have indications for left (L) and right (R). The stabilizer arc should tuck into the ear and twist slightly until it fits comfortably without putting strain on the ear.
3. Pixel Buds come with medium ear tips already connected. If necessary, try one of the provided ear tip sizes.

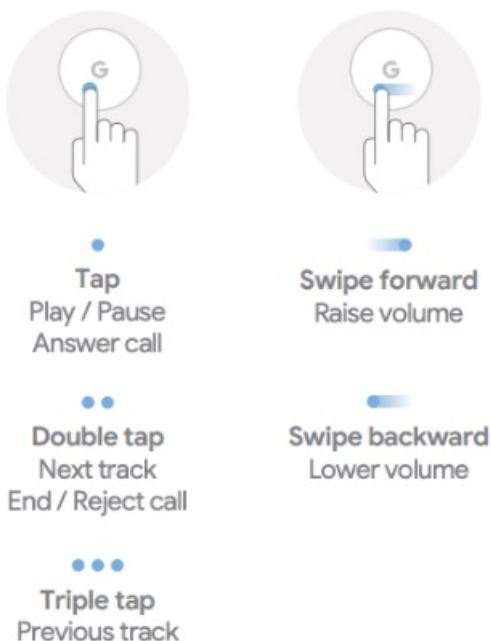

Your left ear may be different from your right ear due to ear differences.

STEP 3: CONTROLS AND GESTURES

With just a few easy movements, you can control your media, manage your calls, and use your Assistant while on the go with Google Pixel Buds.

- Answer calls and play/pause music by tapping.
- To skip a track, double-tap it.
- To return to the previous track, triple tap.
- To boost the volume, swipe forward.
- To reduce loudness, swipe backward.
- **Only for Android 6.0+:** To talk to your Google Assistant, press and hold (requires Assistant set up)

Frequently Asked Questions

- **Is it possible to utilize only one Pixel Bud at a time?**
You can use either the left or right Pixel Bud for a phone call or a bike ride while leaving the other in the case.
- **Can you use Pixel Buds A-Series to shower?**
The Pixel Buds have an IPX4 grade for water and sweat resistance. They should be safe against water splashes but not from direct jets or any level of submersion. At least one reviewer said that they were safe to use in the shower.
- **What is the function of the Google earphones' back button?**
Hold down the pairing button on the back of the wireless charging case until the light on the rear begins to pulsate white. Follow the on-screen instructions after tapping the Google Pixel Buds pairing notification.
- **Can the Pixel Buds A-Series be used with more than one device?**

Google Pixel Buds may connect to up to eight different devices. Place your Google Pixel Buds in the charging case, and immediately the green LED appears, press and hold the case button for three seconds to pair them.

- **On the Pixel Buds A-Series, how do you increase the volume?**

“Hey Google, turn up the volume,” for example, will adjust the volume. Adaptive Sound may also automatically alter the volume. Adaptive Sound dynamically changes the volume based on the noise level of your surroundings as you move between quiet and loud areas.

- **How do you keep your Pixel Buds in your ear?**

Obtain the ideal fit Insert your earpiece gently, tucking the stabilizer arc into the ear. After you’ve inserted each earbud, gently twist it back and forth until it stays in position when you move your head or tap one of them.

- **Why did Google discontinue the Pixel Buds?**

Unfortunately, they had endemic hardware concerns as well. Some users noticed a cracking and hissing sound coming from the Buds, while others experienced audio cuts and other performance issues.

- **Is wireless charging available on the Pixel Buds A?**

Wireless charging was available on the Pixel Buds, but not on the A-series. On the back of the casing is a single button that can be used to pair the earbuds for the first time.

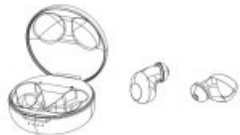

- **Is there a charger included with the Pixel Buds series?**

A USB-C to USB-A charging cable is included. The case, however, does not provide a wireless charging option. To deliver the same sound quality, design language, and Google helpfulness of Pixel Buds to this more modest pricing, we made a few concentrated choices

- **How long does it take to charge Pixel Buds?**

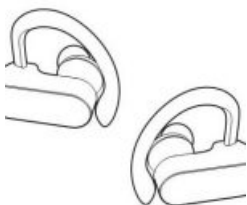

The charging case for the Pixel Buds takes 1.5 hours to charge from 0% to 100% battery life.
