

Philips Avent Dect Baby Monitor

The most reliable connection to your baby. The DECT Baby Monitor delivers complete reassurance. Providing the most reliable connection with crystal clear sound, temperature control, a soothing night light and lullabies for you and your baby.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Annual energy consumption 15kWh/year*
- Rechargeable "parent unit"
- Operating time up to 18 hours
- Energy Saving smart ECO mode

Packaging
